#### **Chapter 1. Letter to Shareholders**

Dear Shareholders.

2018 was a year of stable growth for Nuvoton and we continued to achieve great results in revenue and profitability. The global semiconductor market benefited from expansions in the applications of wireless communications, information industry, automotive electronics, high-performance computing, Internet of Things, and artificial intelligence.

#### **Financial Performance**

2018 overall financial results showed consolidated revenue of NT\$10,040 million with an annual growth rate of 8.71%; the net profit after tax of NT\$711 million with an annual growth rate of 3.27%. The earnings per share was NT\$3.42.

#### **Products, Marketing and Technology Development**

The Company's scope of business mainly includes research, development and sales of IC and semiconductor foundry services. Important achievements are shown below:

Nuvoton created a customer-centric microcontroller ecosystem, which includes a wide range of platform products, and related software and hardware for development, debugging, and mass production, to fully satisfy the needs of various customers. In addition to the successful development of high performance NuMicro® M480 series – Arm Cortex® -M4 microcontroller with secure boot function and hardware cryptography, we collaborated with SEGGER to provide embedded emWin GUI software, and launched NuMicro® M2351 Series TrustZone® empowered microcontroller focusing on IoT security. We launched a new generation of voice products N589 series, targeting the market of intelligent interactive toy application with built-in 8-bit core high-quality voice and music synthesizer. The audio MCU and audio CODEC components have also been successfully adopted by customers, showing the Company's products and innovative applications are recognized by users around the world.

The BMC (Baseboard Management Controller), supported by the OpenBMC open source firmware of OCP (Open Compute Project), which can share the OCP members' BMC firmware development results and exert powerful computing performance. Regarding TPM (Trusted Platform Module), we partnered with OnBoard Security, an American software company, to promote trust computing and jointly market the hardware and the software total solutions for IoT to ensure their applications are protected from the threat of malicious hacker attacks. With the highest level of hardware TPM2.0 security certification, we expect to achieve great results in the future.

For the foundry services, Nuvoton continued to develop the power market in 2018. In addition to processes that range from 3.3V to 40V, a number of high-voltage processes including 60V/80V/120V/250V/600V/700V have been gradually developed to expand the range of the Company's services in power market, while also enhance the competitiveness of customers' products.

#### **Honors and Awards**

Nuvoton has achieved great results in its main business and also won multiple honors and awards. We received the "Excellent Occupational Safety and Health Promotion Performance" award from the Hsinchu Science Park Administration in 2018 which affirmed Nuvoton's commitment to occupational safety. In terms of long-term corporate goals for sustainable development of the environment, we have actively reduced power consumption in the factory and received the "Energy Conservation Elite" from the Ministry of Economic Affairs. Our efforts in wastewater treatment also received the "Outstanding Environmental Protection Personnel" award from the Hsinchu Science Park Administration. These results demonstrated our commitments to corporate social responsibilities and conservation of the Earth's resources.

#### **Enterprise Business and Expectations**

New advanced technologies from wireless communication, artificial intelligence, big data, IoT, smart cities, smart medicine, to cloud computing rely on strong functionalities of semiconductors. In the future, Nuvoton will uphold its global development strategy, steadily strengthen capabilities to research and development, continue to develop more product applications and services, and market more innovative applications and services by cooperating with our clients. We believe that the Company shall explore more business opportunities to maximize the values for our shareholders, clients, and employees.

Finally, on behalf of Nuvoton Technology Corp., we'd like to thank all our shareholders for your support and affirmation.

Chairman Yu-Cheng Chiao

#### Chapter 2. Company Overview

#### I. Company profile and history

Nuvoton Technology Corporation was established on April 9, 2008. In July of 2008, the Company was spun off from Winbond's Logic IC Business Group and went public offering on December 15, 2009. The Company became listed on the Emerging Stock Market on January 29, 2010 and has been listed on the Taiwan Stock Exchange since September 27, 2010.

The Company focuses on the R&D, design and sales of integrated circuits, and has achieved leading positions in microcontrollers, microprocessor, audio, computer and cloud computing IC applications; in addition, the Company owns a 6-inch IC plant that specializes in diverse processing technologies to provide professional semiconductor foundry services and manufactures self-own IC products with its partial capacity.

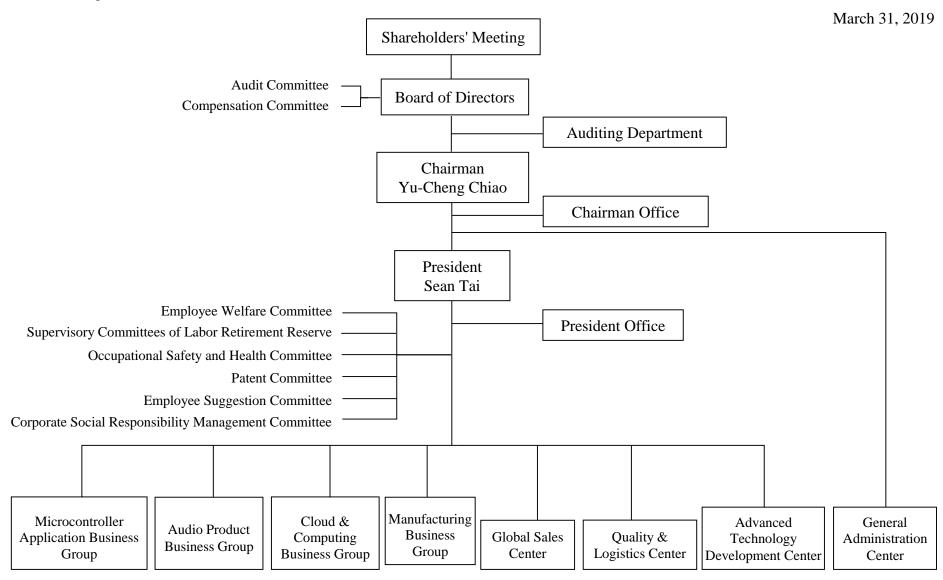

The Company provides customers high quality products at low costs through vigorous innovative technical capabilities, comprehensive product solutions and outstanding integration technologies. We provide customers services from existing foundations of cooperation. With the Company vision "Joy of Innovation", we value the long-term relationship between customers and partners. Nuvoton has set up subsidiaries in the USA, Mainland China, Israel, and India to strengthen regional support and globalization.

Apart from outstanding performance in main business, the Company has won many honors and awards, and was named an excellent supplier of computer ICs by world class brand companies in 2012. The Company was also awarded in 2013 the highest green rating in the validated audit process (VAP) under the EICC Code of Conduct. The Company was a winner at the MOEA 3rd National Industrial Innovation Award as well as the 3rd Potential Taiwan Mittelstand Award in 2014. It was also named an excellent exporters/importers by the Bureau of Foreign Trade in 2014. We won the Taiwan Corporate Sustainability Award and the Potential Taiwan Mittelstand Award in 2015, the Excellent Occupational Safety and Health Promotion Performance award from the Hsinchu Science Park Administration in 2016, and "2017 Environmental Education Partner" of Hsinchu Science Park Bureau in 2017. We actively improved electricity consumption in our plants in 2018 and received the "Energy Conservation Elite" from the Ministry of Economic Affairs. These awards exemplify the national-level high regard bestowed upon the Company and our commitment to corporate social responsibilities.

The Company will continue to build up its strength in R&D and focus on the core businesses while establishing itself as a market leader, the Company will keep aiming to achieve sustainability and the goal of ranking as a world-class IC designer and manufacturer.

#### II. Corporate Governance Report

- (I) Organizational structure and major business units

#### Director information (3)

The diversity policy for members of the Board of Directors is established in Article 20 of the Company's Corporate Governance Best Practice Principles:

The Company's Board of Directors shall direct company strategies, supervise the management, and be responsible to the Company and shareholders. The various procedures and arrangements of the corporate governance system shall ensure that, in exercising its authority, the board of directors complies with laws, regulations, the Articles of Incorporation, and the resolutions adopted by shareholders' meetings.

The structure of Board of Directors should take into account the Company's operations, development and business scale, shareholding of major shareholders and diversity of Board Members. The directors must be diverse in terms of professional backgrounds, professional knowledge and expertise, gender, or fields of work. An appropriate number of Directors ranging between nine to thirteen seats shall be determined when holding elections according to practical requirements.

The members of the Board of Directors shall be balanced between the genders and they shall possess the knowledge, skills, and experience necessary for performing their duties. To achieve the ideal goal of corporate governance, the Board of Directors shall possess the following abilities:

- I. Ability to make sound business judgments.
- II. Ability to perform accounting and financial analysis.
- III. Ability to manage a business.
- IV. Ability to handle crisis management.
- V. Knowledge of the industry.
- VI. An international market perspective.
- VII. Leadership.
- VIII.Decision-making ability.

#### The Board of Directors shall possess the following abilities:

- Note 1: Remuneration to Directors in the most recent year (include Director salary, additional duty payments, severance pay, various bonuses, or incentive payments).
- Note 2: The Company's Board of Directors passed the 2018 remuneration of directors and employees on February 1, 2019. The figures in the table above are estimates, which will be distributed after they are reported to the shareholders' meeting.
- Note 3: Refers to the related business expenses of Directors for the most recent year (including transportation allowance, special allowance, stipends, dormitory, and car).
- Note 4: All payments for the most recent year to Directors who are also employees of the Company (including the position of President, Vice President, other managerial officer and staff), including salary, additional pay, severance pay, bonuses, rewards, transportation allowance, special allowance, stipends, dormitory, and car.
- Note 5: Total pay to Directors from all companies in the consolidated statements (including the Company).
- Note 6: Net profit after tax means the Company's net profit after tax in 2018.
- Note 7: This field shows the amount of remuneration a director of the Company receives from investees other than subsidiaries of the Company. Remuneration refers to pay, compensation (including compensation of employees, directors and supervisors) and remuneration for conducting business received by a director of the Company serving as a director, supervisor or manager of an investee of the Company other than subsidiaries.

Note: O: Attendance in person, \*: Attendance by proxy, X: Absent.

- (3) Should any of the following take place in a board meeting, the date and number of the meeting, agenda item, Independent Director's opinions and the Company's response to such opinions should be recorded:
  - A. Items specified in Article 14-3 of the Securities and Exchange Act: The Company has established the Audit Committee and is therefore exempted from Article 14-3 of the Securities and Exchange Act.

- B. Aside from the above matters, other resolutions adopted by the Board of Directors to which an Independent Director has a dissenting or qualified opinion that is on record or stated in a written statement: This event did not occur at the Company.
- (4) Directors recused themselves from discussion or voting on an agenda item in which they have an interest:

| Name of<br>Director | Agenda item  | Reason for recusal                         | Voting on the agenda item     | Note                                      |
|---------------------|--|--|-------------------------------|---|
| Jie-Li Hsu          | Removal of non-compete clause for the Directors of the Company | The Director has an interest in the matter | Did not participate in voting | 10th Session of 5th<br>Board of Directors |

- (5) An evaluation of the goals set for strengthening the functions of the Board and implementation status during the current and immediately preceding fiscal years:
  - A.The Company has established the Rules of Procedures for Board of Directors Meetings in accordance with the Regulations Governing Procedure for Board of Directors Meetings of Public Companies, posts information on the attendance of Directors and Supervisors on the Market Observation Post System after each Board meeting, and discloses important proposals on the Market Observation Post System.
  - B.The Company holds strategy review meetings every quarter before the scheduled board meeting, at which Directors are present to understand Company's finance and business conditions as well as the execution of major business plans. The Company endeavors to enhance the transparency of corporate information. Aside from holding regular semi-annual investors conferences to discuss the Company's business and financial conditions after board meetings are held, the Company also posts related information on the Market Observation Post System and our Company website.
  - C.The Company evaluates the Directors' performance in terms of participation in the Company's operations, improvement of the quality of decisions made by the board, composition and structure of the board, election of Directors, continuing education, and internal controls in December each year in accordance with the "Regulations Governing Salary, Remuneration and Performance Evaluation of Directors". The results are compiled by the procedural unit in charge of Board Meetings and submitted to the Compensation Committee and the Board to measure the Board's operations in guiding the strategic direction of the Company and overseeing the Company's operations and management, which should help increase long-term shareholder value. The results of overall evaluation in 2018 was good and the results were reported on February 1, 2019 to the Compensation Committee and Board of Directors.
  - D.The Company attaches great importance to corporate governance. Re-election of the Company's 5th-term directors and establishment of the Audit Committee was completed on June 15, 2016, the latter of which, together with the Compensation Committee, assists the Board of Directors in performing its supervisory role.
  - E. Liability insurance for Directors, Supervisors and key officers:

    The Company purchased the "liability insurance for directors, supervisors and key officers" for Directors, Supervisors and key officers starting from 2015. We review the contents of the

insurance policy to verify that the insurance compensation amount and scope of insurance coverage meets requirements.

- 2. Status of Audit Committee or Attendance of Supervisors in Board Meetings
  - 2.1 State of operations of the Audit Committee
    - (1) The Audit Committee convened a total of <u>6</u> meetings (A) in the most recent year. The attendance of Independent Directors was as follows:

| Title                   | Name         | Attendance in person (B) | Attendance by proxy | Attendance rate (%) (B/A) (Note) | Note |
|-------------------------|--------------|--------------------------|---------------------|----------------------------------|------|
| Convener                | Shan-Kio Hsu | 6                        | 0                   | 100%                             | N/A  |
| Independent<br>Director | Royce Hong   | 4                        | 2                   | 67%                              | N/A  |
| Independent<br>Director | David Tu     | 5                        | 1                   | 83%                              | N/A  |
| Independent<br>Director | Jie-Li Hsu   | 5                        | 1                   | 83%                              | N/A  |

Note: Attendance in person is calculated by attendance in person of the Independent Director during the period of service.

(2) The date of the Board meeting, the term, agenda items, resolutions of the Audit Committee, and the Company's handling of the resolutions of the Audit Committee shall be recorded under the following circumstances in the operations of the Audit Committee meeting:

#### A. Items specified in Article 14-5 of the Securities and Exchange Act:

Its responsibilities include company registration, related affairs for board meetings and shareholders' meetings, providing information required for Directors in business operations, update of related corporate governance regulations, related affairs for investor relations, and other related items specified in the Company's Articles of Incorporation or contracts.  The status of business developments in 2018 was as follows:  (1) Established and amended related corporate governance regulations which were filed to the Board of Directors for resolution and passage.  (2) The Group periodically arranges continuing study courses for Directors to choose from.  (3) Purchased liability insurance for the Company's Directors and key officers.  (4) Plan the dates of board meetings one year in advance to facilitate participation of board members. Mail the meeting notice seven days before board meetings and provide sufficient meeting information in accordance with the Company Act and the Rules of Procedures for Board of Directors Meetings. Provide reminders for recusal for conflicts of interest and completed the mailing of the meeting minutes of board meetings within twenty days after the meetings were concluded.  (5)To facilitate corporate governance and improve the performance of the Board of Directors, the Shareholders' Affairs Unit periodically evaluates the performance of the Board of Directors.  (6)The Company organizes one institutional investor conference every six months to report on the Company's financial statistics and overview of business operations.  (7)The Company's board members conduct self-assessments of their performance each year in accordance with the "Regulations Governing Salary, Remuneration and Performance Evaluation of Directors". The results are reported to the Compensation Committee and the Board of Directors. Improvement plans shall be formulated based on ev | Complies with the<br>Governance Best<br>Principles           | Corporate<br>Practice |

Note: If the committee member meets any of the following criteria in the two years before being appointed or during the term of office, please check "\scriv" in the corresponding boxes:

- (1) Not an employee of the Company or any of its affiliates.
- (2) Not a Director or Supervisor of the Company or any of its affiliates. Exception shall apply to independent directors of the Company or its parent or subsidiary companies established pursuant to the Securities and Exchange Act or local regulations.
- (3) Not a natural-person shareholder who holds shares, together with those held by the person's spouse, minor children, or held by the person under others' names, in an aggregate amount of one percent or more of the total number of issued shares of the Company or ranks as one of its top ten shareholders;
- (4) Not a spouse, second degree kin or closer, or a direct blood relative of third degree or closer to anyone listed in the three preceding clauses.
- (5) Not a Director, Supervisor, or employee of a corporate/institutional shareholder that directly holds five percent or more of the total number of issued shares of the Company or ranks as one of its top five shareholders;
- (6) Not a Director, Supervisor, manager, or a shareholder that holds more than 5% of shares at a company or institution that has financial or business exchanges with the Company.
- (7) Not a professional person, business owner, partner, Director, Supervisor, or manager any sole-proprietorship, partnership, company, or institution providing commercial, legal, financial, or accounting services or consultations to the Company or any of its affiliated companies; nor a spouse of anyone listed herein.
- (8) Not been a person of any conditions defined in Article 30 of the Company Act.

#### (2) Roles and Responsibilities of the Compensation Committee

Committee members must exercise the care of a prudent administrator to fulfill the following duties, and offer recommendations for discussion by the Board of Directors: 1. Review the regulations periodically and put forward recommendations for corrections; 2. Establish and review the performance targets, and institutions, standards and structure of the remuneration policies of the Company's Directors, Supervisors and managers periodically; and 3. Periodically review the status of performance targets of the Company's Directors and managers and determine the content and amount of remuneration to each individual.

#### (3) Operation of Compensation Committee

- A.The Company's Compensation Committee is comprised of 4 individuals including all Independent Directors.
- B.Current term for the members: June 15, 2016 June 14, 2019. A total of 2 (A) meetings of the 2018 Compensation Committee were held in the most recent year. The attendance was as follows:

| Title               | Name            | Attendance in person (B) | Attendance by proxy | Attendance rate (%)<br>(B/A) (Note) | Note |
|---------------------|-----------------|--------------------------|---------------------|-------------------------------------|------|
| Convener            | David Tu        | 2                        | 0                   | 100%                                | N/A  |
| Committee<br>member | Royce Hong      | 2                        | 0                   | 100%                                | N/A  |

| Committee           | Jie-Li Hsu      | 2                        | 0                   | 100%                                | N/A  |

Other matters that require reporting:

- I. If the Board of Directors did not adopt or revise the recommendations of the compensation committee, it should describe the date of the Board meeting, term of the Board, agenda item, resolutions adopted by the Board, and actions taken by the Company in response to the opinion of the compensation committee: This event did not occur at the Company.
- II. If a member opposes a resolution the Compensation Committee has adopted or has reservations with a written record or a statement, the date and session of the meeting, agenda item, opinions of all the members, and the handling of their opinions shall be indicated: This event did not occur at the Company.

Note: The attendance rate (%) shall be calculated by dividing the number of meetings a member of the Compensation Committee attended by the number of meetings held within his/her term.

The Company has established mechanisms for communicating with the employees such as periodic Supervisor management meetings, internal communication meetings and the internal website. The Company also communicates with employees through reasonable and effective methods including internal announcements and personal notifications on matters that could result in major changes to operations.  The Company has established development plans in line with employees' needs in accordance with their job description and positions and requests unit Supervisors and senior employees to assist new employees in understanding the Company's market position and future development.  |  |
| (VII)          | Has the Company established any consumer protection mechanisms and complaint procedures regarding R&D, purchasing, production, operation and service?  In terms of the marketing and labeling of products and services, has the Company followed relevant laws, regulations, and international norms?   |     |    | (VI)           | The Company's quality control mechanisms cover each step in the manufacturing process. We ensure the quality of the products through continuous monitoring on the manufacturing process and rapid and efficient detection of problems. We conduct comprehensive defect analyses for defective products returned by customers to verify the source of the defective products and implement improvements. We also use continuous innovation and improvement of products, procedures, and services to provide high-quality services and outstanding quality to become irreplaceable partners for customers. With regard to customer complaint channels, the Company periodically implements customer satisfaction surveys to understand whether the Company is providing satisfying products and services and to improve the quality of after-sales services.  1. The Company strives to design, procure, manufacture and market products that contain no hazardous materials in accordance with international regulations and to satisfy customers' requests. We also enforce measures to protect the environment and fulfill responsibilities as a social citizen.  2. The Company follows EU restrictions on hazardous substances and safeguard users' health through the following policies:  a. The Company cooperates with packaging plants and, except for special products specified by the customer, has ceased all production and sales of packaged products containing lead since January 1, 2010.  b. Starting on August 9, 2009, we began to use halogen-free materials for new products from the development stage.  c. The Company converted all materials used for existing products to environmentally-friendly materials and halogen-free materials step by step and completed the conversion on July 30, 2011. | In line with the Corporate<br>Social Responsibility Best<br>Practice Principles                                |

V. If the Company has established Corporate Social Responsibility Best Practice Principles based on "Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies", please describe any difference between the principles and their implementation:

The Company has established Corporate Social Responsibility Best Practice Principles governing the daily implementation of corporate social responsibilities in line with regulations and international norms to ensure that the Company provides a safe working environment, the employees receive respect and dignity from their work, and the Company bears environmental protection responsibilities and follows moral principles in corporate governance to fully implement the Company's CSR policy and statement. There is no significant difference from the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.

VI. Other key information useful for explaining status of corporate social responsibility practices:

<sup>(</sup>I) The Company has established and implemented comprehensive standards in labor rights, health and safety, environmental protection, and management systems to achieve CSR goals.

- (II) With regard to labor rights, the Company follows international labor rights regulations and prohibits the hiring of workers under 15 years of age and involuntary workers (including coerced, collateral, in debt, bound by contracts, enslaved and human trade) and prohibits harassment, illegal discrimination, coercion and inhumane treatment of employees (including potential employees), and there has not been major labor-management disputes in 2018.
- (III) In health and security, the Company pledges to provide employees with a safe, sanitary and healthy work environment, organize periodic employee health examinations and continue to hold activities that promote health to help employees maintain physical health. We also encourage employees to form clubs to promote their physical, psychological and spiritual health, help them find balance between work and leisure and cultivate habits for regular exercise. The Company also established a massage area by the visually impaired in the office to provide employees with relaxation services and hosts various sports competitions and art exhibitions in hopes of cultivating good exercise habits and leisure interests of the employees and provide them with a networking channel after work. The current clubs and former classes include the basketball club, cycling club, badminton club and yoga club etc. The Company's employees also actively participate in charity events organized by the Charity Club to help the disadvantaged and give back to society. Their work included donations to the Genesis Social Welfare Foundation for caring for patients that are in a persistent vegetative state, donations to Shih Guang Educational and Nursing Institution for patients that require long-term care, donations to children's homes for children, donations to the Children's Hearing Foundation to provide hearing-impaired children with electronic cochlear implants, etc. In 2018, Nuvoton employees donated a total of NT\$295,000 to Mackay Memorial Hospital and National Taiwan University Hospital Hsin-Chu Branch for assisting the financially challenged who are unable to afford health care in order to help those in poverty and in sickness. Nuvoton also sponsored lunch and registration fees for schoolchildren of Hsinchu Yuan Dong Junior High School from impoverished families to promote the spirit of solidarity.
- (IV) In terms of environmental protection, Nuvoton is committed to establish advanced international safety, sanitation management, and environmental protection standards. Nuvoton Technology's wastewater treatment personnel received the "Outstanding Environmental Protection Personnel" award from the Hsinchu Science Park Administration in 2018. We also actively participate in environmental training programs and was recognized again as the "2018 Environmental Education Partner" of Hsinchu Science Park. The Company also periodically implements effective education and training activities and organized 92 classes/210 hours of training courses in 2018 with 2,196 participants as part of the effort to continue improvement on eradicating any foreseeable risks to employees' health, environmental pollutions and damages to properties. Potential disasters and losses can be prevented beforehand through sound management and active participation of all employees.
- (V) With regard to the management system, the Company has established comprehensive internal control mechanisms to monitor internal operations; in moral obligations, we prohibit behaviors such as bribery, corruption, blackmail and illegal use of company funds. We also do not participate in political activities. Through the Audit Committee, the Company is focused on corporate governance and Supervisors monitor the operations of the Company, the Company's compliance of regulations, financial transparency, instant disclosure of important information and make sure that there is no internal corruption.
- VII. If the corporate social responsibility reports have been certified by external institutions, they should state so below:
  The Company's 2017 Corporate Social Responsibility Report was published in 2018. It was compiled in accordance with Global Reporting Initiative Standards GRI Standards and was certified by an impartial third-party agent,
  SGS Taiwan.

6. Ethical corporate management and measures adopted:

|              | Billion corporate management and measures adopte   |     |    |      | Implementation status   | Departure from "Ethical   |

| I. (I) (II)  | Establishment of ethical corporate management policy and approaches Has the Company stated in its Memorandum or external correspondence about the policies and practices it has to maintain business integrity? Are the Board of Directors and the managerial officers committed in fulfilling this commitment?  Does the Company have any measures against dishonest conducts? Are these measures supported by proper procedures, behavioral guidelines, disciplinary actions and complaint systems?  Has the Company taken steps to prevent occurrences listed in all subparagraphs under Article 7, Paragraph 2 of the "Ethical Corporate | V   |    | (I)  | The Company conducts business activities on the principle of integrity. To implement integrity policy and actively prevent unethical behavior, the Company has established Ethical Corporate Management Best Practice Principles that has been approved by the Board of Directors and announced on the Company's external webpage, outlining for the employees of the Company in detail the important issues in conducting business.  The Company has established "Regulations on Ethical Corporate Management" which clearly defined the content of unethical behavior. The employees of the Company should not, in principle, accept gifts, except for the maintenance of business etiquette which stipulates direct or indirect exchanges, promise or request for money, gifts, services, discounts, entertainment, meals, investment stock options or other interests; it is only appropriate if a gift can be classified in the preceding conditions and the employee follows the "Regulations on Ethical Corporate Management" and files for approval through related procedures. The Regulations have been announced to all employees and have been incorporated into the Company's training programs on corporate social responsibility. The Company has also established "Regulations on Reporting Unethical Business Conducts" for the processing procedures in cases where the Company's employees or others violate ethical business practices. The regulations also provide a legal report channel and process that keeps the identity of the reporter and the content of the report confidential to protect the reporter from reprisals.  The Company's "Regulations on Ethical Corporate Management" clearly restricts the supply and acceptance of unlawful interests and the Company has established "Procedures Governing the Processing of the Acceptance of Unlawful Interests" and "Procedures Governing the Restriction |   |
|              | Management Best Practice Principles for TWSE/TPEx Listed Companies" or business conduct that are prone to integrity risks?   | V   |    |      | on Facilitating Payments" (including "Operating Rules for Political Donations," "Operating Rules for Charity Donations," and the requirement of "Conflict of Interest Recusal") for employees to follow.  |   |
| 2. Im<br>(I) | plementation of ethical corporate management  Does the Company evaluate the integrity of all counterparties it has business relationships with? Are there any integrity clauses in the agreements it signs with business partners?   | V   |    | (I)  | The Company has requested major suppliers to sign a letter of undertaking of integrity to state the Company's ethical corporate management principles, evaluate the integrity of suppliers before establishing business relationships and to explain to business counterparts the ethical corporate management policy to prevent the occurrence of unethical conduct. In addition, the Company's purchase orders will include a clause stipulating compliance with the Company's ethical corporate management policy.   |   |
| (II)         | Does the Company have a unit that specializes (or is involved) in business integrity? Does this unit report its progress to the Board of Directors on a regular basis?   | V   |    | (II) | The Company has established the "Corporate Social Responsibility Management Committee" in July 2012 and the Chairman designated high-level Supervisors to serve as Chair of the Committee, responsible for overseeing the drafting, execution, interpretation, consulting services and notification registry of the Company's ethical corporate management policy. The President reports to the Board of Directors annually on the execution.  The Company has also established "Regulations on Reporting Unethical Business Conducts" which clearly regulates the policy of preventing conflicts of interests. When an employee, in the execution  | In line with the Ethical<br>Corporate Management Best<br>Practice Principles for<br>TWSE/TPEx Listed<br>Companies |
| (III)        | Has the Company established policies to prevent conflicts of interests, implemented such policies, and provided adequate channels of communications?   | V   |    |      | of company business, discovers that the employee or an institution he/she represents is in a conflict of interest, or if the employee, spouse, parents, children or other stakeholders stands to benefit unlawfully from the conflict of interest, the employee should notify his/her Supervisor and the Company's designated unit simultaneously. The employee's supervisor should provide adequate assistance in solving the issue. The Company holds periodic education on the prevention of insider trading for Directors, Supervisors and professional managers.   |   |

| Yes<br>V | No     | (IV) The Company has established an effective accounting system and internal control institutions in accordance with regulations and established related procedures for internal auditing staff to  | Corporate Management Best<br>Practice Principles for<br>TWSE/TPEx Listed<br>Companies" and reasons  |

- 9. Status of implementation of internal control system
  - (1) Statement of Declaration on Internal Control
    Nuvoton Technology Corp.
    Internal Control System Statement

Date: February 1, 2019

This Statement of Internal Control System is issued based on the self-assessment results of the Company for year 2018:

- I. The Company is fully aware that the establishment, implementation and maintenance of its internal control system is the responsibility of the Board of Directors and managers. In this regard the Company has already established such a system aimed at providing reasonable assurance of the achievement of objectives in the effectiveness and efficiency of operations (including profits, performance, and safeguard of asset security), reliability of reporting, and compliance with applicable laws and regulations.
- II. There are inherent limitations to even the most well-designed internal control system. As such, an effective internal control system can only reasonably ensure the achievement of the aforementioned goals. Moreover, the operating environment and situation may change and impact the effectiveness of the internal control system. However, self-supervision measures were implemented within the Company's internal control policies to facilitate immediate rectification once procedural flaws have been identified.
- III. The Company judges the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (hereinafter referred to as the "Regulations"). The internal control system judgment criteria adopted by the Regulations divide internal control into five elements based on the process of management control: 1. Control environment, 2. Risk assessment, 3. Control operation, 4. Information and communication, and 5. Monitoring. Each element further contains several items. For more information on the abovementioned items, please refer to the Regulations.
- IV. The Company has evaluated the design and operating effectiveness of its internal control system according to the aforesaid criteria.
- V. Based on the findings of the evaluation mentioned in the preceding paragraph, the Company believes that as of December 31, 2018 its internal control system (including its supervision and management of subsidiaries), encompassing internal controls for knowledge of the degree of achievement of operational effectiveness and efficiency objectives, reliability of reporting, and compliance with applicable laws and regulations, is effectively designed and operating, and reasonably assures the achievement of the above-stated objectives.
- VI. This Statement will become a major part of the content of the Company's Annual Report and Prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- VII. This Statement has been passed by the Board of Directors Meeting of the Company held on February 1, 2019, where 0 of the 9 attending Directors expressed dissenting opinions, and the remainder all affirmed the content of this Statement.

Chairman of the Board: Arthur Yu-Cheng Chiao

President: Sean Tai

- (2) If the Company engages an accountant to examine its internal control system, disclose the CPA audit report: N/A.

#### (VI) Dividend policy and implementation status

#### 1. Company dividend policy:

Under the Company Act and Nuvoton's Articles of Incorporation, the Company shall, after covering prior years' losses and paying all taxes and dues, set aside 10% of its earnings as legal reserve as legal reserve until such reserve equals the Company's total paid-in capital. Of the remainder plus undistributed earnings in prior years or of distributable earnings resulting from this year's loss plus undistributed earnings in prior years, special reserve shall be set aside or reversed according to laws or the competent authority. The remainder surplus may be retained for business needs or otherwise distributed by the following principle: The Board of Directors may propose an earnings distribution plan for dividends for stockholders and submit the plan to the shareholders' meeting for approval. Not less than 10% of the total dividends distributed to stockholders shall be in the form of cash.

Our dividend policy is set up in accordance with the Company Act and the Articles of Incorporation of our Company in consideration of factors including capital, financial structure, operating status, earnings, industry characteristics, cycle, etc. The retained earnings may be retained as appropriate or distributed in cash dividend or both stock dividend and cash dividend so as to ensure the sustainable development of the Company. The appropriation of dividends must take into consideration future operations and cash

Note 2: Pending final approval from Shareholders' Meeting.

Note 3: Price-earnings (P/E) ratio = Average market price / Earnings per share.

Note 4: Price-dividend (P/D) ratio = Average market price / Cash dividends per share.

Note 5: Cash dividend yield rate = Cash dividend per share / Average market price.

requirements, and dividends distributed shall be no less than 50% of earnings available for appropriation in that year. The current dividend policy for retained earnings and dividends with respect to their conditions, timing, amount and type would be adjusted from time to time in accordance with economic and industrial fluctuations and the Company's future development needs and profitability.

2. Dividend distribution to be proposed to the shareholders' meeting:

The Company's 2018 dividend distribution proposal was formulated in the February 1, 2019 meeting of the Board of Directors in the chart below. This plan will be carried out in accordance with related regulations after passage in resolution by the Shareholders' Meeting scheduled for June 24, 2019.

Statement of Earning distribution 2018

Unit: NT\$

| Item  | Amount         |
|---|----------------|
| Undistributed earnings from previous years  | \$ 308,314,499 |
| Plus: The difference from the retroactive adjustment due to the adoption of IFRS 9 in retained earnings                               | 493,000        |
| Plus: Disposal of financial assets in other comprehensive income  | 3,228,100      |
| measured at fair value through profit and loss accumulated in retained earnings   | 2,0,_0         |
| Plus: Retained earnings adjusted by investment on equity method Minus: Re-measurement of defined benefit plan converted into retained | 2,585,205      |
| earnings  | (69,908,000)   |
| Plus: Net income of 2018  | 710,633,362    |
| Minus: 10% Legal reserve appropriated   | (71,063,336)   |
| Retained Earnings Available for Distribution as of December 31, 2018  | 884,282,830    |
| Distribution Items:   |                |
| Cash Dividends to Common Shares (NT\$2.5 per share)   | (518,886,000)  |
| End-of-period undistributed earnings  | \$ 365,396,830 |

(VII) The effects of the stock dividends proposed by the shareholders' meeting on the Company's business performances and earnings per share: Not applicable.

#### (VIII) Remuneration of employees, directors and supervisors

 Percentages or ranges of remuneration of employees and directors under the Articles of Incorporation

According to the Company Act and the amended Articles of Incorporation, if the Company has been profitable in the year, the remuneration for employees shall be over 1% (inclusive) and the remuneration for Directors shall be under 1% (inclusive) of the profit before tax and before deducting remuneration for employees and Directors.

2. Basis for estimating the amount of remuneration of employees and directors, basis for calculating the number of shares to be distributed as employee remuneration, and the

accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated amount, for the current period

The basis for estimating the Company's 2018 remuneration for employees and Directors is 6% and 1% of the profit before tax and before deducting remuneration for employees and Directors. The preceding estimation basis is based on the amended Company Act and the amended Articles of Incorporation. If there are changes made to the amount of the estimated remuneration to employees and Directors after the publication day of the consolidated annual financial statements, the changes will be applied in accordance with accounting estimation changes and will be included in the financial statements of the following year.

- 3. Remuneration proposals passed by the board of directors
  - The difference, reasons and handling of discrepancies between the cash or stock appropriation of remuneration to employees and Directors and the annual recognized costs: According to the amended Company Act and the amended Articles of Incorporation, if the Company has been profitable in the year, the remuneration for employees shall be over 1% (inclusive) and the remuneration for Directors and Supervisors will be under 1% (inclusive) of the profit before tax and before deducting remuneration for employees and Directors. The Company has approved the appropriation of NT\$8,405,000 in remuneration for Directors and remuneration of NT\$50,428,000 for employees in the meeting of the Board of Directors on February 1, 2019. The preceding amounts are consistent with the estimated amount of the recognized costs.
  - (2) The amount of employee bonus to be paid in stocks out of the current company-level financial report in terms of the sum of net profit after tax and employee bonus: Not applicable.
- 4. Actual appropriation of remuneration for employees, Directors and Supervisors for 2017: Unit: Share; NT\$

|                              |             |                     |                 |                 | <i>σπαι</i> <b>σ</b> , 1 (1 φ |

Note: The remuneration of Directors, Supervisors and employees above were passed by the shareholders' meeting on June 12, 2018. There is no difference between the actual amount distributed and the amount recognized in the 2017 financial statements.

- (IX) Buyback of Nuvoton Stock: N/A.
- IV. Corporate bond issuance status: N/A.
- V. Issuance of preferred stocks: N/A.
- VI. Issuance of global depositary receipts (GDR): N/A.
- VII.Exercise of employee stock option plan (ESOP): The Company has never implemented employee stock options.
- VIII.Restricted stock awards: The Company has never implemented employee new stock options.

- IX. Mergers, acquisitions or issuance of new shares for acquisition of shares of other companies: The Company has not had mergers, acquisitions or issuance of new shares due to acquisition of shares of other companies that have been completed for the most recent year and up to the date of report.
- X. Implementation of capital allocation plan: Not applicable, for the Company was free of the situation of having any securities issuance that was uncompleted or completed in the most recent three years but has not yet fully yielded the planned benefits.

#### **Chapter 3. Business Overview**

#### I. Business Activities

#### (I) Business scope

#### 1. Major business activities

The Company's primary business consists of the research and development, design and sales of integrated circuits and wafer foundry services, providing customers with customized total solutions from design, system integration, and manufacture to market.

#### 2. Revenue distribution

Unit: thousand NT\$

|                        | 2018              |                          |  |  |
|------------------------|-------------------|--------------------------|--|--|
| Core product types     | Operating revenue | Revenue Distribution (%) |  |  |
| Regular IC Income      | 8,117,960         | 81%                      |  |  |
| Foundry service Income | 1,901,899         | 19%                      |  |  |
| Other                  | 20,362            | -                        |  |  |
| Total                  | 10,040,221        | 100%                     |  |  |

#### 3. Current products and services

The Company's primary business consists of IC design and sales and wafer foundry services. The main IC products are regular ICs with a wide range of applications. Products include microcontrollers (MCU), audio products and cloud computing products. The Company also owns a 6-inch wafer plant equipped with diversified processing technologies to provide professional wafer foundry services.

The Company's main products and services are described below:

#### (1) Regular IC Business

The Company's regular IC products consist mainly of microcontrollers, audio products and cloud computing products.

The Company has planned a comprehensive product platform for microcontrollers including 32-bit and 8-bit MCU product lines. We also satisfy demands in IoT, health care, industrial control, and consumer electronics with low power consumption, high precision, high interference resistance, a variety of peripheral resources, and high levels of safety and confidentiality.

Audio products include audio CODEC, ARM® Cortex®-M0/M4 and 4/8-bit MCU and Class D Speaker Amplifiers and Audio Enhancement. Target markets are diverse and they include smart home market such including smart appliances, smart stereo systems, smart family entertainment, smart interactive toys, smart robots, consumer electronics, medicine, vehicle-mounted, and industrial applications.

In terms of cloud computing products, the Company focuses data centers, super computer servers, edge computing, and computer processing in related smart devices. Our solutions include security structure, communication interfaces, and energy management, and we provide remote baseboard management controllers, trust platform modules, highly-integrated super output/input chips (Super I/O), embedded controllers, computer hardware monitoring chips, and power management controllers for servers used by major brands and OEM plants.

#### (2) Foundry service

The Company owns an advanced 6-inch foundry plant and has accumulated over 25 years of experience in wafer foundry services. We are committed to providing stable, long-term capacity, the best OEM quality, and a precise delivery schedule to our customers. We create more added-value for our customers and provide IDM-level OEM services as an indispensable partner in market competition with our strong R&D team and integrated services in the semiconductor supply chain.

#### 4. New products under development

#### (1) Regular IC Business

The development of the Company's new microcontroller products focuses on achieving high processing performance, security, and low power consumption to satisfy demand in the industrial control market. The Company also continued to develop analog and security technologies for IoT development. We will introduce the latest IoT security ARM® Cortex®-M23 microcontroller in 2018. The MCU was used as the foundation for expanding the IoT security MCU product line. We aim to provide high-performance, secure, and lower power consumption products for the IoT market.

We are currently committed to development of new audio products in the smart home, mobile phone, and consumer electronics application markets. We launched the audio MCU/DSP I941xx with ARM® Cortex®-M4F core to provide high-speed, low-power-consumption, and integrated audio recognition and audio search algorithms for high-performance application and solutions for human-machine interface (HMI) in audio IoT applications. The Company has also invested R&D manpower in applications for smart toys and smart robots to provide cost-efficient total solutions and algorithms. In addition, we also launched N589 — the first Emd-Flash 8-bit uC audio control chip in the industry. It effectively shortens the development cycle and resolves storage issues for audio products.

In terms of cloud computing products, we also actively introduced related functions that satisfy future energy conservation legislation. We increased the computing speed of the embedded processor and the hardware encryption module to fulfill customer demand for product innovation and security functions.

#### (2) Foundry service

To continue enhancing customers' competitiveness, the Company continues to advance the power supply management and customized manufacturing processes of our wafer foundry service to optimize the performance of high-voltage and power components. At the same time, the Company also satisfies customers by actively developing next-generation high energy bandgap and high voltage discrete components and smart transducers. In response to the rapid development of automotive electronics, Nuvoton's wafer foundry continues to maintain VDA6.3 automotive standard certification to satisfy customers' demand for automotive-standard products and maximize their competitiveness.

#### (II) Industry Overview

#### 1. Current trends and outlook of the industry

#### (1) Regular IC Business

The demand for MCU continues to climb. The 32-bit ARM® Cortex®-M MCU is the backbone of the market and demand is increasing rapidly as the product offers low power consumption, high performance and a complete ecosystem with a vast number of users. The growing applications in the overall MCU market that attract the most attention are the IoT, industrial controls, consumer electronics, and vehicle-mounted systems.

Applications that enable hands free natural language audio interaction interfaces and the Internet are leading a revolution and innovations in audio products and related industries. The Company's audio products are also heading into innovation in this diversified sector and has completed several projects with end users. Applications include smart audio, smart appliances, IoT, and wearable devices.

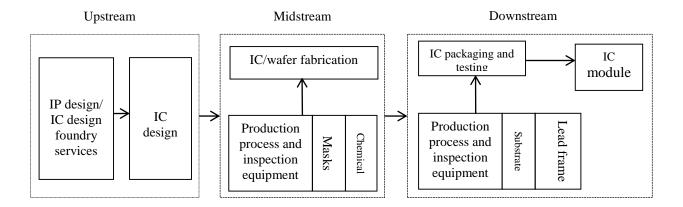

Furthermore, smart networks and artificial intelligence computing continue to change our lifestyles to satisfy changing and growing personal demand for servers, data centers, and customized computing devices while personal data protection and equipment security become increasingly important.

#### (2) Foundry service

Market research institute WSTS stated that the revenue of the global semiconductor industry is expected to reach US\$490.1 billion in 2019, a 2.5% increase from the US\$477.9 billion in 2018. The Company actively develops new products, applications, and markets to fully satisfy market and customer demand and respond to market changes. In terms of regions, China remains a key market and the Company also actively develops wafer foundry services in other regions.

#### 2. Relationships with suppliers in the industry's supply chain

The supply chain of the IC industry can be roughly divided into upstream IC design companies, midstream IC wafer manufacturers and downstream IC packaging and testing plants.

From the perspective of the supply chain, MCUs are the control and computing core of end products. In cloud computing IC, the Company's downstream customers consist mainly of servers, desktop workstations, personal computers, smart handheld devices, network communications and industrial computer industries. The Company has established long and close partnerships in these sectors and has also established stable, long-term cooperation models with upstream industries.

#### 3. Product Trends

#### (1) Regular IC Business

MCU products must incorporate low power consumption as well as high performance and cost effectiveness. Different application fields demand specific designs and one product cannot satisfy all requirements. Therefore, the Company's MCU product plan involves the development of an MCU platform for different applications, high confidentiality and security designs, and software/hardware reference solutions to fulfill diverse and rapid development demands from the market. The Company also promotes the products to professional realms for the customers to obtain the best and most cost-effective solution.

The development of future audio products will continue to focus on Audio MCU/DSP, ultra-low power (ULP) audio CODEC, Smart Class D Speaker Amplifiers, Audio Enhancement, and the DSP algorithm to provide cost-effective solutions with smart and interactive chips for smart home, mobile phones, consumer electronics, portable tablet computer applications. We shall also continue to launch Emd-Flash audio control chips with the aim of providing total solutions that effectively shorten the development cycle and resolve storage issues for audio products.

Demand for cloud services stems from users who upload vast amounts of data and analysis. Innovative applications and services not only lead to the construction of data and computing centers but also increases the importance of security for basic user-end information collection equipment.

#### (2) Foundry service

The development of 6" wafer foundry service is now focused on high-voltage and customization. The company therefore concentrates on developing high-efficiency and low power consumption manufacturing processes for power supply management. By making full use of existing technologies, the company strives to become the best provider of total power supply management solutions. In addition, we have developed customized manufacturing processes for customers' demand for sensors used in 5G and IoT technologies in emerging markets.

#### 4. Product competition

#### (1) Regular IC Business

The Company has begun development of the new 32-bit universal MCU ARM® Cortex®-M0 in 2010 and introduced the brand-new, high-end 32-bit MCU ARM® Cortex®-M4 with floating-point operations and DSP functions in 2012. The Company has also introduced the latest secure ARM® Cortex®-M23 MCU in 2016. We use our complete range of products, superior cost-performance ratio, satisfaction of future industrial application demands, and a strong technical support team to serve customers and build lasting unique competitiveness.

The Company has begun developing audio products under the DSP framework in 2017 and actively provides cost-effective solutions. The Company has also developed diversified algorithms for all kinds of applications on the market in order to satisfy different needs for applications. We also continue to launch new audio products to provide the industry with the best choices and service solutions with the aim of escaping the lowend low-price market and focus on the smart toy market with higher margins.

With regard to cloud computing IC, the Company uses unique security technology as the foundation to integrate key customers' systems and applications. Innovative products, superior quality, and technical support remain our most important competitive edge.

#### (2) Foundry service

In the face of competition from a constantly growing production capacity in the global semiconductor industry, the Company's wafer foundry service is focused on the power supply management market and customization market. Overall, when compared with competitors at home and abroad, our wafer foundry service's quick and comprehensive technical support and flexibility, coupled with a unique customized production process, provides customers with an indispensable competitive edge.

# (III) Overview of Technology and R&D

# 1. R&D expenditures

Unit: thousand NT\$

| Item                       | 2018       | 2019 up to March 31 |
|----------------------------|------------|---------------------|
| R&D Expenditures (A)       | 2,524,485  | 605,005             |
| Net operating revenues (B) | 10,040,221 | 2,049,821           |
| (A)/(B)                    | 25%        | 29%                 |

#### 2. Technologies and products successfully developed for the most recent year

| Year | Research and development achievements  |
|------|--|
| 2018 | The Company launched the high-performance 192MHz Cortex®-M4 M480 MCU which is adapted to industrial control.   |
| 2018 | We launched the next-generation ARM® V8-M structure ARM® Cortex-M23 core with TrustZone technology M2351 low-power consumption IoT security MCUs.  |
| 2018 | We launched the world's first Emd-Flash 8-bit uC audio control chip (N589).  |
| 2018 | We launched the I941 Audio MCU/DSP for smart home applications.  |
| 2018 | We launched the TPM2.0 secure chip products that meets the latest specifications for TCG in 2018 and received the compatibility attestation for the latest Common Criteria and Windows 10 2018. Products adapted to PCs, laptops, servers, IoT gateways, and other sectors with requirements for secure chips. |
| 2018 | We launched multiple computer input/output control chips for desktop business computers, high-end gaming computers, and industrial computers. They support the latest version of the CoffeeLake/CometLake system chips and meet Intel's latest low power consumption specifications.                           |
| 2018 | We launched multiple sets of fan control chips for applications in industrial computers and data centers.  |

#### 3. Long- and Short-Term Business Development Plans

#### (1) Regular IC Business

#### A. Short-Term Development:

In MCU, the Company enhances the advantages in cost-performance ratio and localized support and actively builds an ecosphere in which we work with third-party partners by providing free emWin graphic user interface software to provide customers with the best development experience. We also joined the ARM® mbed<sup>TM</sup> IoT Device Platform that offers IoT developers a consistent operating system, cloud services, a system of tools and developers for building and deploying standard large-scale commercial IoT solutions. With respect to audio products, we will provide customers with comprehensive and high-performance audio and voice solutions. We also launched the first Emd-Flash 8-bit uC audio control chip in the industry. It effectively shortens the development cycle and resolves storage issues for audio products.

Regarding cloud computing products, the Company uses leading security technologies to integrate local advantages and expand the development of hardware and software solutions that are suitable for the world's leading brand names.

#### B. Long-Term Business Development Plan:

The Company will continue to advance MCU product research and development and focus on the three major technologies of low power consumption, analog IC and security. We hope to enrich the Company's 32-bit and 8-bit MCU product platform and through technology innovation and advancement in the technology of the production process. We shall offer comprehensive product selection, high technical barriers, and short product lead time to establish unique advantages for the Company's MCUs.

For our audio products, we will continue to focus on high-performance and low power consumption audio processing controllers to provide customers with high-quality and integrated audio processing ICs. We will also continue to develop products for audio amplifiers and ultra-low power consumption encoders and decoders. We work hard on our audio product lines to provide the industry with the best choices and service options with the aim of escaping the low-end and low-price market and focus on developing the smart toy market with high margins.

As online applications continue to expand, online security has become an important issue that cannot be ignored in the future. The Company has invested more resources in product development based on our advantages in existing technologies and customer relationships. We hope to leverage product and technology innovation and provide customers with leading secure products in various different applications in our pursuit of long-term development.

#### (2) Foundry service

#### A. Short-term business development plans:

The Company's wafer foundry service has accumulated many years of profound experience in production, research and development, and product services. We shall continue to service our customers with innovative ideas on existing foundations. The Company's short-term business development and promotion are focused on power management, analog, and transducer production development in order to meet the demand for energy efficient, high performance power management products and handheld transducers.

#### B. Long-term business development:

The Company's wafer foundry service has a strong process and technology R&D team that works with a comprehensive product support team and an international certified laboratory to provide customers with IDM-level product services. With this foundation, we shall focus on markets including 5G mobile communication, IoT medical electronics, and automotive electronics as our long-term business

development objectives. The Company shall continue to provide optimized solutions to customers through special customized processes to provide optimized solutions to customers. In addition, our business development will gradually shift from Asia to Europe and America as we become a leading brand for customized processes in wafer foundry services.

#### II. Market, production and sales

#### (I) Market analysis

#### 1. Areas in which main products (services) are sold (provided)

Unit: thousand NT\$

| Calan madan  | 2018       |                |  |  |
|--------------|------------|----------------|--|--|
| Sales region | Amount     | Percentage (%) |  |  |
| Asia         | 9,598,222  | 96%            |  |  |
| America      | 144,201    | 1%             |  |  |
| Europe       | 135,310    | 1%             |  |  |
| Other        | 162,488    | 2%             |  |  |
| Total        | 10,040,221 | 100%           |  |  |

#### 2. Market Share

The company's 32-bit Cortex®-M0/M4 MCU, ARM® 7/9, and 8-bit MCUs are cost effective and well received by the market. We continue to increase our market share and enjoy stable growth. Our largest customers include well-known major manufacturers of consumer, industrial control, power supply, and communications products. Output of audio products in toys, Internet of Vehicles, Internet of Things (IoT) and consumer appliances have acquired a significant market share.

With regard to computer/cloud applications, market share of the Company's motherboard Super I/O, notebook EC and TPM still ranked in the top three worldwide in 2018. Our largest customers include well-known brand names in computers as well as OEMs.

#### 3. Future Market Supply and Demand and Future Growth

The development of MCUs is moving toward energy-efficiency, smart devices, security, small and light devices and multiple functions. There is also a strong market demand for wireless charging for smartphones. The demand for IoT energy-conservation devices, security management, healthcare management and smart AI products in the future will help MCU market growth. The 2018 PC market suffered an impact from smartphones. The Company maintained its lead in the market by intensifying relations with major computer brands as well as penetrating into more product applications.

Output of audio CODEC IC and amplifiers in consumer electronics continues to rise.

Notably, the Company's audio enhancement DSP IC has been installed in applications such as Bluetooth speakers, smartphone docking stations, and mid-range and high-range television audio amplifiers. The Company also actively collaborates with manufacturers of different types of speakers (such as thin speakers) in hopes of creating value for customers' products in this new sector.

#### 4. Competitive niches

The Company's MCUs provide diversified customized services with the help of professional R&D and technical support teams. We establish strategic partnerships with customers and provide competitive total design and development solutions to lower customers' cost, shorten development and increase the competitiveness of their products. In addition, the Company's experience in the voice and audio processing market involves IoT market application for the integration of MCU audio CODEC and third-party voice recognition in hopes of providing diversified product options and ideal economic solutions.

With regard to cloud computing products, the Company and customers collaborated on developing customized IC for usage in non-computer product lines to lower cost for customers and enhance their competitive edge.

#### 5. Favorable and unfavorable factors to long-term development and response measures

#### (1) Favorable factors

The Company's MCUs retain advantages in the high compatibility, consistent development platform, upward and downward compatibility, ease of development by users, and environmental protection certifications. This core competitive edge raises the barrier to competition for rivals. The audio enhancement DSP chips and the audio amplifier integrated chip can provide audio optimization for customers' devices and support thin speakers for a simpler and trendier outer design in end customers' application.

The Company's cloud computing products retains a leading position in the market. The Company also led the industry in becoming the first TPM (Trusted Platform Module) IC provider with Federal Information Processing Standards (FIPS), Common Criteria EAL4+ and Trusted Computing Group (TCG) certification, thereby enhancing our core competitiveness and increasing the market penetration in the PC market.

#### (2) Unfavorable factors and response measures

Competition in consumer electronics has intensified in recent years. The short lifecycles of the products and the quick replacement of tradition products by new product applications in the market mean relatively higher investment costs. We must continue the research and development of products with high integration capabilities to lower cost and enhance R&D capabilities to maintain our leading position in the market.

The Company will continue to strengthen optimization of our products and invest in global technical support teams in order to provide localized customer support services. We will also provide reference designs to reduce R&D costs and time required for customers to adopt our products. In addition, the Company plans to establish applications sales teams for key customers, introduce vertically integrated application solutions and replicate our successful solutions in other emerging cities and markets.

Integration of international brands in the PC industry continues as the PC industry faces extended declines in the market. The Company builds on the successful foundation of partnerships with PC ODM/OEM customers and continues to provide new products with innovative integration, low power consumption and high cost-performance ratio to obtain more cooperation opportunities with international brand firms.

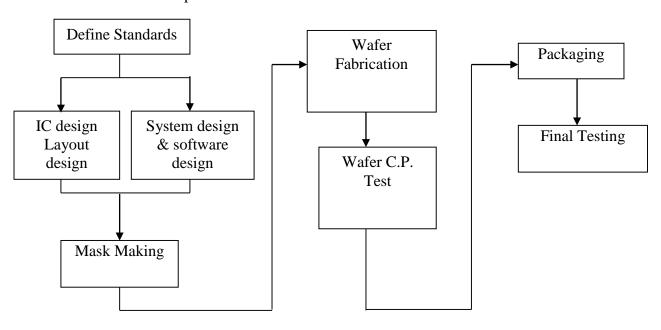

The Company continues the recruitment of teams to strengthen local sales services in order to build customer recognition in local markets, build long-term business partnerships and provide growth in the Company's revenue.

#### (II) Important applications and manufacturing processes of major products

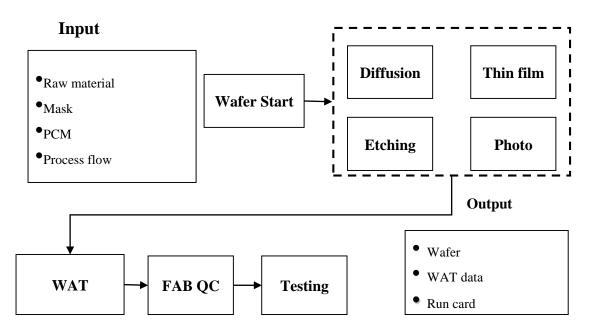

#### 1. Important applications of major products:

| Product             | Important Applications                      |
|---------------------|---|
| Regular IC Business | Provide customers with industrial controls, |
|                     | consumer electronics, computer equipment,   |
|                     | vehicle-mounted equipment, and              |
|                     | communication products.                     |
| Foundry service     | Provide foundry service for customers'      |
|                     | integrated circuits.                        |

#### 2. Production process:

## Wafer Fabrication:

## (III) Supply status of primary raw materials

| Name of primary raw material | Major supplier                        | Supply status   |  |  |
|------------------------------|---------------------------------------|---|--|--|
| Wafer                        | Supplier A, Supplier L and Supplier I | Stable quality, high yield rate, long-term cooperation, good supply status. |  |  |
| Blank wafer                  | Supplier C, Supplier J and Supplier H | Stable quality and supply, long-term cooperation, good supply status.       |  |  |

(IV) Names of suppliers who accounted for more than 10% of the purchases of the Company for either of the most recent two years, and the ratio to total purchases

Unit: thousand NT\$

|      |              |           |  |                             |              |           | C III ti tii ti | abana 1 (1 φ                |
|------|--------------|-----------|--|-----------------------------|--------------|-----------|-----------------|-----------------------------|
|      |              | 20        | 017                                    |                             | 2018         |           |                 |                             |
| Item | Name         | Amount    | Percentage of<br>total purchase<br>(%) | Relationship<br>with issuer |              | Amount    |                 | Relationship<br>with issuer |
| 1    | Supplier A   | 841,468   | 25%                                    | N/A                         | Supplier A   | 796,034   | 24%             | N/A                         |

## IV. Environmental protection expenditure information

- (I) Losses due to environmental pollution (including compensation) and total fines during the most recent year and up to the annual report publication date: N/A.
- (II)Preventive measures taken to ensure a safe working environment and maintain employees' personal safety

The Company continues to invest preventative measures in safety and sanitary in our best efforts to maintain a safe and sanitary work environment. We hope to lower any risks of potential harm to employees in their work environments through continuous improvements. The Company's actual input includes:

- 1. Obtained the OHSAS 18001 Occupational Health and Safety and ISO 14001 Environmental Management certifications in 2008 for more systematical and more comprehensive protection in safety and sanitary protection management and environmental protection.
- 2. Enhance fire safety and personnel protection facilities in the work environment with domestic laws and regulations as the minimum standard while incorporating international standards into regulations governing plant construction. Continue investment in funds and personnel for improvement projects.
- 3. In environmental inspections, we conduct inspections on chemical factors, carbon dioxide, illumination, noise, ionizing radiation, etc. and the results were all superior to regulatory standards.
- 4. In personal protection of the employees, we provide suitable personal protection equipment in accordance with the nature of the operation. The measure is incorporated in automatic inspection plans to maintain its validity.

- 5. Employees' professional training and certification in safety and sanitary management is a key aspect for protection plans. We organized 92 courses in 2018 to enhance employees' recognition beyond the scope of protection by facilities.
- 6. Emergency drills are conducted in accordance with possible operation hazards. We schedule periodical training for the employees every year to minimize damages in emergencies and we completed 64 different drills in 2018.
- 7. Continuous safety, sanitary and environmental protection improvement plans are advanced measures to ensure the safety of the work environment and employees and we completed 34 improvement plans in 2018.

## V. Employees-employer relations

(I) The Company's employee benefit measures, continuing education, training, retirement system, and actual state of implementation

## 1. Employee benefits measures:

The Company funds the Employee Welfare Fund in accordance with related regulations and we organized the Employee Welfare Committee to plan, oversee and implement employee benefits.

The Company requests all employees to enroll in labor insurance unless otherwise specified in the Labor Insurance Act. The Company also offers employees with group insurance paid for by the Company. Family members of the employees can also enroll in the group insurance by paying the insurance fee.

In addition, to enhance the Company's competitiveness, we offer a complete training program for employees' career plans and professional capabilities. We also we provide performance bonuses and implement fair promotion institutions for employees to enhance employees' cohesion.

## 2. Employee training

To help new recruits adapt to the Company culture, we offer training programs in accordance with the positions of new recruits and request the supervisor and employees of the department to help new recruits understand the Company's market position and future development. Employees can participate in training courses held by consulting firms, training institutes or government and business groups in accordance with their personal professional needs to enhance their knowledge.

To cultivate long-term talents and encourage employees to improve their knowledge in accordance with the organizational needs, the Company established regulations governing on-job training to allow employees to enhance professional or managerial skills.

## 3. Retirement system and its implementation status

To provide security to employees in retirement and enhance their service during employment, the Company has established a retirement system pursuant to Labor Standards Act requirements that clearly states retirement conditions, payment standards and application processes and we have also established the Supervisory Committees of Employee Retirement Reserve in accordance with regulations. In addition, for employees that fit the criteria in the Labor Pension Act, the Company injects an additional 6% of the employee's monthly salary to his/her pension account at the Bureau of Labor Insurance.

- (II) Licenses held by personnel involved in transparency of financial information International certified internal auditor (CIA): Auditing Department 2 employee; CPA of ROC: Accounting Department 1 employee.
- (III) Employer-employee relations and employee rights maintenance measures
  - 1. Labor Agreement Status

The Company follows all labor laws and related regulations in all matters. Both labor and management follow rules stipulated in the work contract, work regulations and various management regulations. To facilitate friendly communication between labor and management, the Company holds labor-management meetings and the departments hold periodical monthly meetings etc. to help both sides come to a consensus and enhance cooperation to achieve maximum mutual benefits for both parties. The Company has enjoyed harmonious relations between labor and management since its founding and there have been no major labor-management disputes or losses.

## 2.Employee benefit protection status

The Company has established comprehensive regulations governing the rights, obligations and benefits of employees. The Company also established complaint filing protocols to safeguard employee rights and benefits.

(IV) Losses arising as a result of employment disputes in the recent year up until the publishing date of this annual report; quantify the estimated losses and state any response actions or state any reasons why losses cannot be reasonably estimated.

Since the founding of the Company up until now, there have not been any labor-management disputes that resulted in losses. We shall continue to enhance communication between the two parties to achieve company prosperity and safeguard employees' benefits in hopes of reducing the occurrence of labor-management disputes with through peaceful and reasonable means.

## (V) Nuvoton employee code of conduct

The Company established comprehensive regulations governing employees' work ethics, intellectual property rights/trade secret protection and work rules, as described below:

- 1. Work ethics and conduct
- (1) Work rules: The Company's regulations contain dedicated service rules and general principles for prevention of sexual harassment.
- (2) Workplace sexual harassment prevention regulations: In accordance with relevant government laws and regulations, the Company has explicitly drafted workplace sexual harassment prevention regulations and has adopted appropriate prevention, correction, and punishment measures.
- (3) Employment contracts: We have implemented rules including loyalty in the execution of job functions and restrictions on dual employment and non-competition.
- 2. Rules for protection of intellectual property rights and maintenance of business secrets
  - (1) Work rules: The Company's regulations contain general principles for maintenance of the confidentiality of business secrets.
  - (2) Employment contracts: Employment contracts specify requirements concerning confidentiality duties, document ownership, secret information, ownership of intellectual or industrial property, and non-compete terms during the period of

employment.

(3) Legal software authorization statement and notice to employees: Agreements on legal software usage and respect for intellectual property rights are in place.

#### 3. Work orders

- (1) Division of responsibilities: The "Delegation Policy" specify the division of responsibilities and guide the performance of on-the-job duties.
- (2) Duties of individual units: The mission of each unit is clearly defined.
- (3) Restrictions on the hiring of relatives: The "restrictions on the hiring of relatives" specify that relatives should not be hired to fill certain positions. This is intended to ensure that the effectiveness and efficiency of the Company's internal management is not compromised unnecessarily by family relationships between employees.

## (4) Attendance management

- A. "Request for leave regulations": These regulations explicitly state The Company's leave request principles and regulations.
- B. "Domestic travel regulations" and "foreign travel regulations": To facilitate personnel management and activate substitute mechanisms, the Company has established operating procedures for travel applications; To ensure that personnel taking business trips accomplish their missions, such personnel shall be given appropriate travel subsidies.
- C. "Overtime regulations": These regulations explicitly specify The Company's overtime principles and standards.
- D. "Regulations concerning work stoppages due to natural disasters and major accidents": These regulations explicitly state standards for work stoppages in the event of natural disasters and major accidents.

#### (5) Performance management

- A. "Performance management and evaluation regulations": These regulations seek to provide an understanding of employees' strengths and weaknesses, and help them to develop their personal abilities, by assessing the degree to which employees have achieved their personal goals; Employees' contributions to the organization are determined on the basis of mutual comparisons between peers.
- B. "Performance guidance operating regulations": Performance guidance work seeks to enhance the productivity of the Company as a whole.

## (6) Reward and penalty regulations

The "Reward and penalty handling regulations" prescribe appropriate rewards or punishments for those employees who display superior performance or violate regulations and have the intent of encouraging and maintaining on-the-job morale and order.

## (7) Manpower development

"In-service continuing education regulations": These regulations establish channels for continuing education, and have a goal of accumulating the human resources

needed for the Company's long-term operations.

## (8) Communication channels

"Corporate internal appeal regulations": These regulations provide employees with channels expressing their views and making appeals directly to the Company, maintain employees' rights and interests, and encourage communication of views.

|                      | Net profit ratio (%)                            | 5.03  | 6.41      | 7.36   | 7.45   | 7.07   |  |
|                      | Earnings per share (NT\$)                       | 1.65  | 2.26      | 2.95   | 3.32   | 3.42   |  |
|                      | Cash flow ratio (%)                             | 53.46   | 29.31     | 37.60  | 19.07  | 45.59  |  |
| Cash flows           | Cash flow adequacy ratio (%)                    | 158.10  | 132.78    | 126.31 | 92.94  | 86.67  |  |
|                      | Cash re-investment ratio (%)                    | 2.66  | 1.15      | 1.91   | -0.63  | 1.87   |  |
| _                    | Operating leverage                              | 8.46  | 6.06      | 5.50   | 5.12   | 5.07   |  |
| Leverage             | Financial leverage                              | 1.00  | 1.00      | 1.00   | 1.00   | 1.00   |  |

Reasons for changes in financial ratios in recent two years:

<sup>1.</sup> Increase in cash flow ratio and cash re-investment ratio: Mainly due to the decrease in inventory that caused the increase in net cash flows in business activities.

| Leverage                              | Operating leverage                              | 8.66  | 5.82      | 5.29   | 5.27   | 5.22   |  |
| -                                     | Financial leverage                              | 1.00  | 1.00      | 1.00   | 1.00   | 1.00   |  |

Reasons for changes in financial ratios in recent two years:

<sup>1.</sup> Increase in cash flow ratio and cash re-investment ratio: Mainly due to the decrease in inventory that caused the increase in net cash flows in business activities.

The calculation formula for the analytical items is stated below:

- 1. Capital Structure Analysis
  - (1) Debt to total assets ratio = total indebtedness / gross assets.
  - (2) Long-term fund to property, plant and equipment ratio = (total equity + non-current liabilities) / net amount of real estate properties, plants and equipment.

#### 2. Liquidity Analysis

- (1) Current ratio = current assets / current liabilities.
- (2) Quick ratio = (current assets inventory prepaid expenses) / current liabilities.
- (3) Interest protection multiple = net income before income tax and interest expense / current interest expense.

## 3. Operating ability

- (1) Receivables (including accounts receivable arising from operation notes receivable) turnover ratio = net sales / average receivables (including accounts receivable arising from operation notes receivable) balances.
- (2) Average collection period = 365 / receivables turnover.
- (3) Inventory turnover ratio = cost of goods sold / average amount of inventory.
- (4) Payable (including accounts payable arising from operation notes payable) turnover ratio = cost of goods sold / average payables (including accounts payable arising from operation notes payable) balances.
- (5) Average Inventory Turnover Days = 365 / Average Inventory Turnover.
- (6) Real estate, plant, and equipment turnover ratio = net sales / average net for real estate, plant, and equipment.
- (7) Total assets turnover = net sales / average gross assets.

## 4. Profitability

- (1) Return on assets ratio = [net income + interest expense (1– tax rate)] / average gross assets.
- (2) ROE = income after tax/total average equity.
- (3) Net profit ratio = net income / net sales.
- (4) EPS = (income belonging to owner of the parent company stock dividend of preferred stocks)/weighted average number of issued shares.

## 5. Cash flows

- (1) Cash flow ratio = new cash flows from operating activities / current liabilities.
- (2) Net cash flow adequacy ratio = Net cash flow from operating activities for the most recent five years / (capital expenditures + inventory increase + cash dividend) for the most recent five years.
- (3) Cash re-investment ratio = (net cash flows from operating activities —cash dividend) / (gross margin of property, plant and equipment + long-term investment + other non-current assets + working capital).

#### 6. Leverage:

- (1) Operating leverage = (net operating revenues current operating cost and expense)/operating profit.
- (2) Financial leverage = operating profit/(operating profit interest expense).

III. Supervisors' or Audit Committee's review report in the most recent fiscal year

Audit Committee's Report

The Board of Directors has prepared and submitted the 2018 business report, financial

statements, and earnings distribution proposal. The Board of Directors have appointed Hung-Bin

Yu, Accountant and Kuo-Tien Hung, Accountant of Deloitte & Touche CPA Firm to audit the

financial statements and they have submitted an audit report with no reservations. The Audit

Committee has reviewed the business report, financial statements, and the earnings distribution

proposal and did not find any instances of noncompliance. According to Article 14-4 of the

Securities and Exchange Act and Article 219 of the Company Act, it is hereby submitted for your

review and perusal.

To

Nuvoton Technology Corp. 2019 General Shareholders' Meeting

Chairman of the Audit Committee: Shan-Kio Hsu

February 1, 2019

IV. Financial statements of the most recent year

Consolidated Financial Statement of Affiliates:

For the 2018 year (from January 1 to December 31, 2018), companies that

should be included in the consolidated financial statement of affiliates as provided by the

"Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and

Consolidated Financial Statements of Affiliated Enterprises" are the same as what should

be included in the consolidated financial statements of parent and subsidiary companies as

provided in IFRS No. 10, and the relevant information that should be disclosed in the

consolidated financial statements of affiliates has been disclosed in the consolidated

financial statements of the parent and its subsidiaries. The Company shall not be required

to prepare separate consolidated financial statements of affiliates.

Hereby declared that

## INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Nuvoton Technology Corporation

## **Opinion**

We have audited the accompanying consolidated financial statements of Nuvoton Technology Corporation and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated balance sheets as of December 31, 2018 and 2017, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

## **Basis for Opinion**

We conducted our audits accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2018. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Validity of sales revenues

There is significant risk of revenue recognition. In addition, customers' line of credits are highly correlated to delivery of products and recognition of sales revenue. We therefore considered that the validity of sales revenue from the twenty largest customers with changes in credit lines and temporary increase in credit lines in 2018 as a key audit matter for 2018. Refer to Note 4 to the consolidated financial statements for the Group's revenue recognition policies.

Our audit procedures in response to the validity of sales revenue included understanding the design and the implementation of internal control of sales revenue and selecting samples of revenue items to ensure the occurrence of transactions.

#### **Other Matter**

We have also audited the parent company only financial statements of Nuvoton Technology Corporation as of and for the years ended December 31, 2018 and 2017 on which we have issued an unmodified opinion.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the audit committee) are responsible for overseeing the Group's financial reporting process.

## Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with statements that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2017 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Hung-Bin Yu and Kenny Hong.

Deloitte & Touche Taipei, Taiwan Republic of China

#### Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and consolidated financial statements shall prevail.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

#### 1. GENERAL INFORMATION

Nuvoton Technology Corporation (the "Company") was incorporated in the Republic of China ("ROC") in April 2008 and commenced business in July 2008. The Company is engaged mainly in the research, design, development, manufacture, and sale of logic integrated circuits ("ICs") and the manufacturing, testing and OEM of 6-inch wafers.

For the specialization and division of labor and the reinforcement of core competitive ability, the Company's parent company, Winbond Electronics Corporation (WEC), spun off its Logic IC business into the Company on July 1, 2008 in accordance with the Business Mergers and Acquisitions Act and the Company commenced business in July 2008. WEC held approximately 61% of the ownership interest in the Company as of December 31, 2018 and 2017.

The Company's shares have been listed on the Taiwan Stock Exchange since September 27, 2010.

#### 2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Board of Directors and authorized for issue on February 1, 2019.

# 3. APPLICATION OF NEW AND REVISED STANDARDS, AMENDMENTS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations of IFRS (IFRIC), and Interpretations of IAS (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

Except for the following, whenever applied, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed and issued into effect by the FSC would not have any material impact on the Group's accounting policies:

## 1) IFRS 9 "Financial Instruments" and related amendment

IFRS 9 supersedes IAS 39 "Financial Instruments: Recognition and Measurement", with consequential amendments to IFRS 7 "Financial Instruments: Disclosures" and other standards. IFRS 9 sets out the requirements for classification, measurement and impairment of financial assets and hedge accounting. Refer to Note 4 for information relating to the relevant accounting policies.

The requirements for classification, measurement and impairment of financial assets have been applied retrospectively from January 1, 2018, and the requirements for hedge accounting have been applied prospectively. IFRS 9 is not applicable to items that have already been derecognized at December 31, 2017.

#### Classification, measurement and impairment of financial assets

On the basis of the facts and circumstances that existed as at January 1, 2018, the Group has performed an assessment of the classification of recognized financial assets and has elected not to restate prior reporting periods.

The following table shows the original measurement categories and carrying amount under IAS 39 and the new measurement categories and carrying amount under IFRS 9 for each class of the Group's financial assets and financial liabilities as at January 1, 2018.

|  |   | Carrying Amount        |   |  |   |  |  |
|--|---|------------------------|---|--|---|--|--|
| Financial assets   | IAS 39  | IAS 39                 |   | 9  | IAS 39  | IFRS 9   |  |
| Cash and cash equivalents  | Loans and receivab  | oles                   | Amortized cost                            |  | \$ 1,417,029  | \$ 1,417,029                                       |  |
| Equity securities  | Available-for-sale financial assets and financial assets measured at cost |                        | nancial assets comprehensive income (i.e. |  | 591,282   | 591,282  |  |
| Notes receivable,<br>accounts receivable<br>and other<br>receivables   | Loans and receivab  | bles                   | Amortized cost                            |  | 1,142,023   | 1,142,023  |  |
| Refundable deposits paid   | Loans and receivab  | bles                   | Amortized cost                            |  | 71,571  | 71,571   |  |
|  | IAS 39<br>Carrying<br>Amount as<br>of January 1,<br>2018                  | Reclassifi-<br>cations | Remeasure-<br>ments                       | IFRS 9<br>Carrying<br>Amount as<br>of January 1,<br>2018 | Retained<br>Earnings<br>Effect on<br>January 1,<br>2018 | Other<br>Equity<br>Effect on<br>January 1,<br>2018 |  |
| FVTOCI - Equity instruments Add: From available-for sale financial assets a financial assets measured at cost (IAS 39) | ınd   | \$591,282<br>(591,282) | \$153,511<br>                             | \$744,793  | \$ 493<br>  | \$153,018  |  |
| Total  | <u>\$591,282</u>  | <u>\$ -</u>            | <u>\$153,511</u>                          | <u>\$744,793</u>   | <u>\$ 493</u>   | <u>\$153,018</u>                                   |  |

a) The Group elected to designate all its investments in equity securities previously classified as available-for-sale under IAS 39 as at FVTOCI under IFRS 9, because these investments are not held for trading. As a result, the related other equity - unrealized gain on available-for-sale financial assets of \$226,224 thousand was reclassified to other equity - unrealized gain on financial assets at FVTOCI.

Investments in unlisted shares previously measured at cost under IAS 39 have been designated as at FVTOCI under IFRS 9 and were remeasured at fair value. Consequently, an increase of \$153,018 thousand was recognized in both financial assets at FVTOCI and other equity - unrealized gain on financial assets at FVTOCI on January 1, 2018.

The Group recognized under IAS 39 impairment loss on certain investments in equity securities previously classified as measured at cost and the loss was accumulated in retained earnings. Since those investments were designated as at FVTOCI under IFRS 9 and no impairment assessment is required, an adjustment was made that resulted in a decrease of \$493 thousand in other equity unrealized gain on financial assets at FVTOCI and an increase of \$493 thousand in retained earnings on January 1, 2018.

b) Notes receivable, accounts receivable, other receivables and refundable deposits paid that were previously classified as loans and receivables under IAS 39 were classified as measured at

amortized cost with an assessment of expected credit losses under IFRS 9.

2) IFRS 15 "Revenue from Contracts with Customers" and related amendment

IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 "Revenue", IAS 11 "Construction Contracts" and a number of revenue-related interpretations. Refer to Note 4 for related accounting policies.

3) IFRIC 22 "Foreign Currency Transactions and Advance Consideration"

IAS 21 stipulated that a foreign currency transaction shall be recorded on initial recognition in the functional currency by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. IFRIC 22 further explains that the date of the transaction is the date on which an entity recognizes a non-monetary asset or non-monetary liability from payment or receipt of advance consideration. If there are multiple payments or receipts in advance, the entity shall determine the date of the transaction for each payment or receipt of advance consideration.

The Group applied IFRIC 22 prospectively to all assets, expenses and income recognized on or after January 1, 2018 within the scope of the Interpretation.

b. Amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed by the FSC for application starting from 2019

| New, Amended or Revised Standards and Interpretations (the "New IFRSs")     | Effective Date Announced by IASB (Note 1) |
|---|---|
| Annual Improvements to IFRSs 2015-2017 Cycle                                | January 1, 2019                           |
| Amendments to IFRS 9 "Prepayment Features with Negative Compensation"       | January 1, 2019 (Note 2)                  |
| IFRS 16 "Leases"  | January 1, 2019                           |
| Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement"            | January 1, 2019 (Note 3)                  |
| Amendments to IAS 28 "Long-term Interests in Associates and Joint Ventures" | January 1, 2019                           |
| IFRIC 23 "Uncertainty over Income Tax Treatments"                           | January 1, 2019                           |

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.
- Note 2: The FSC permits the election for early adoption of the amendments starting from 2018.
- Note 3: The Group shall apply these amendments to plan amendments, curtailments or settlements occurring on or after January 1, 2019.
- 1) IFRS 16 "Leases"

IFRS 16 sets out the accounting standards for leases agreements of lessor and lessee that will supersede IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", and a number of related interpretations.

#### Definition of a lease

Upon initial application of IFRS 16, the Group will elect to apply IFRS 16 only to contracts entered into (or changed) on or after January 1, 2019 in order to determine whether those contracts are, or contain, a lease. Contracts identified as containing a lease under IAS 17 and IFRIC 4 will not be

reassessed and will be accounted for in accordance with the transitional provisions under IFRS 16.

## The Group as lessee

Upon initial application of IFRS 16, except for payments for low-value assets and short-term leases which will be recognized as expenses on a straight-line basis, the Group will recognize right-of-use assets and lease liabilities for all leases on the consolidated balance sheets. On the consolidated statements of comprehensive income, the Group will present the depreciation expense charged on right-of-use assets separately from the interest expense accrued on lease liabilities and computed using the effective interest method. On the consolidated statements of cash flows, cash payments for the principal portion of lease liabilities will be classified within financing activities; cash payments for the interest portion will be classified within operating activities. Currently, payments under operating lease contracts are recognized as expenses on a straight-line basis. Cash flows for operating leases are classified within operating activities on the consolidated statements of cash flows. Leased assets and finance lease payables are recognized for contracts classified as finance leases.

The Group will apply IFRS 16 retrospectively with the cumulative effect of the initial application recognized on January 1, 2019 but will not restate comparative information.

## The Group as lessor

Except for sublease transactions, the Group will not make any adjustments for leases in which it is a lessor and will account for leases under IFRS 16 starting from January 1, 2019.

The Group subleased its leasehold assets to a third party. Such sublease is classified as an operating lease under IAS 17. The Group will assess the sublease classification on the basis of the remaining contractual terms and conditions of the head lease and sublease on January 1, 2019.

## Anticipated impact on assets, liabilities and equity as of January 1, 2019

|   | Carrying<br>Amount as of<br>December 31,<br>2018 | Adjustments<br>Arising from<br>Initial<br>Application | Adjusted<br>Carrying<br>Amount as of<br>January 1, 2019 |
|---|--|---|---|
| Prepayments for leases - current<br>Prepayments for leases - non-current<br>Right-of-use assets | \$ 3,463<br>35,129                               | \$ (3,463)<br>(35,129)<br>577,763                     | \$ -<br>577,763   |
| Total effect on assets  | <u>\$ 38,592</u>                                 | \$ 539,171  | <u>\$ 577,763</u>                                       |

| Total effect on liabilities   | <u>\$</u>  | \$ 539,171  | \$ 539,171  |
| Retained Earnings   | <u>\$ 1,426,005</u>                              | <u>\$</u>   | <u>\$ 1,426,005</u>                                     |

## 2) IFRIC 23 "Uncertainty over Income Tax Treatments"

IFRIC 23 clarifies that when there is uncertainty over income tax treatments, the Group should assume that the taxation authority will have full knowledge of all related information when making related examinations. If the Group concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the Group should determine the taxable profit, tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatments used or planned to be used in its income tax filings. If it is not probable that the taxation authority will accept an uncertain tax treatment, the Group should make estimates using either the most likely amount or the expected value of the tax treatment, depending on which method the Group expects to better predict the resolution of the uncertainty. The Group has to reassess its judgments and estimates if facts and circumstances change.

Upon initial application of IFRIC 23, the Group will recognize the cumulative effect of retrospective application in retained earnings on January 1, 2019.

#### c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

| New IFRSs  | Effective Date Announced by IASB (Note 1)            |
|--|--|
| Amendments to IFRS 3 "Definition of a Business" Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets | January 1, 2020 (Note 2)<br>To be determined by IASB |
| between An Investor and Its Associate or Joint Venture"  | To be determined by IASB                             |
| IFRS 17 "Insurance Contracts"  | January 1, 2021                                      |
| Amendments to IAS 1 and IAS 8 "Definition of Material"   | January 1, 2020 (Note 3)                             |

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.
- Note 2: The Group shall apply these amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.
- Note 3: The Group shall apply these amendments prospectively for annual reporting periods beginning on or after January 1, 2020.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group's consolidated financial position and financial performance, and will disclose the relevant impact when the assessment is completed.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Statement of Compliance**

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs as endorsed and issued into effect by the FSC.

## **Basis of Preparation**

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments and defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets that are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

#### **Basis of Consolidation**

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation.

Subsidiary included in consolidated financial statements:

|             |   |  | % of Owr   | nership |
|-------------|---|--|------------|---------|
|             |   |  | Decemb     | er 31   |
| Investor    | Investee  | Main Business  | 2018       | 2017    |
|             |   |  |            |         |
| The Company | Nuvoton Electronics Technology (H.K.)<br>Limited ("NTHK")     | Sales of semiconductor   | 100        | 100     |
|             | Pigeon Creek Holding Co., Ltd. ("PCH")                        | Investment holding   | 100 (Note) | 100     |
|             | Marketplace Management Limited ("MML")                        | Investment holding   | 100        | 100     |
|             | Nuvoton Investment Holding Ltd. ("NIH")                       | Investment holding   | 100        | 100     |
|             | Song Yong Investment Corporation ("SYI")                      | Investment holding   | 100        | 100     |
|             | Nuvoton Technology India Private Limited ("NTIPL")            | Design, sales and after-sales service of semiconductor   | 100        | 100     |
| NTHK        | Nuvoton Electronics Technology (Shenzhen)<br>Limited ("NTSZ") | Computer software service (except I.C. design), wholesale business for computer, supplement and software | 100        | 100     |
| РСН         | Nuvoton Technology Corporation America ("NTCA")               | Design, sales and after-sales service of semiconductor   | 100        | 100     |
| MML         | Goldbond LLC ("GLLC")   | Investment holding   | 100        | 100     |
| GLLC        | Nuvoton Electronics Technology (Shanghai)<br>Limited ("NTSH") | Provides projects for sale in China<br>and repairing, testing and<br>consulting of software              | 100        | 100     |
|             | Winbond Electronics (Nanjing) Ltd. ("WENJ")                   | Computer software service (except I.C. design)   | 100        | 100     |
| NIH         | Nuvoton Technology Israel Ltd. ("NTIL")                       | Design and service of semiconductor  | 100        | 100     |

Note: PCH is proceeding with liquidation and legal procedure.

#### Classification of Current and Non-current Assets and Liabilities

Current assets include cash and cash equivalents and those assets held primarily for trading purposes or to be realized, sold or consumed within twelve months after the reporting period, unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. Current liabilities are obligations incurred for trading purposes or to be settled within twelve months after the reporting period and liabilities that the Group does not have an unconditional right to defer settlement for at least twelve months after the reporting period. Except as otherwise mentioned, assets and liabilities that are not classified as current are classified as non-current.

#### **Foreign Currencies**

The consolidated financial statements are presented in the Company's functional currency, New Taiwan dollars.

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's foreign currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement are recognized in profit or loss in the period they arise.

Exchange differences arising on the retranslation of non-monetary items measured at fair value are included in profit or loss for the period at the rates prevailing at the end of reporting period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, and exchange differences arising are recognized in other comprehensive income.

## **Cash Equivalents**

Cash equivalents consist of highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

#### **Financial Instruments**

Financial assets and financial liabilities are recognized when an entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities other than financial assets and financial liabilities at fair value through profit or loss(ie.FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

#### a. Measurement category

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis, except derivative financial assets which are recognized and derecognized on settlement date basis.

#### 2018

Financial assets are classified into the following categories: Financial assets at FVTPL, financial assets at amortized cost, and equity instruments at FVTOCI.

#### 1) Financial asset at FVTPL

Financial asset is classified as at FVTPL when the financial asset is mandatorily classified or it is designated as at FVTPL. Financial assets mandatorily classified as at FVTPL include investments in equity instruments which are not designated as at FVTOCI and debt instruments that do not meet the amortized cost criteria or the FVOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss does not incorporate any dividend or interest earned on the financial asset. Fair value is determined in the manner described in Note 26.

#### 2) Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost are measured at amortized cost, which equals to gross carrying amount determined by the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for:

- a) Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset; and
- b) Financial assets that are not credit-impaired on purchase or origination but have subsequently become credit-impaired, for which interest income is calculated by applying the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

#### 3) Investments in equity instruments at FVTOCI

On initial recognition, the Group may make an irrevocable election to designate investments in equity instruments as at FVOCI. Designation at FVOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

## 2017

The categories of financial assets held by the Group are financial assets at FVTPL, available-for-sale financial assets, and loans and receivables.

## 1) Financial assets at fair value through profit or loss

Financial assets are classified as at FVTPL when the financial assets are either held for trading or designated as at fair value through profit or loss. Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

#### 2) Available-for-sale financial assets

Listed shares held by the Group that are traded in an active market are classified as available-for-sale financial assets and are stated at fair value at the end of each reporting period. Changes in the fair value of available-for-sale financial assets are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of or is determined to be impaired.

Dividends on available-for-sale equity instruments are recognized in profit or loss when the Group's right to receive the dividends is established.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment loss at the end of each reporting period and are presented in a separate line item as financial assets carried at cost. If, in a subsequent period, the fair value of the financial assets can be reliably measured, the financial assets are remeasured at fair value. The difference between carrying amount and fair value is recognized in profit or loss or other comprehensive income on financial assets. Any impairment losses are recognized in profit and loss.

#### 3) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables including cash and cash equivalent, notes and accounts receivable, account receivable due from related parties, other receivables and refundable deposits are measured at amortized cost using the effective interest method, less any impairment, except for short-term receivable when the effect of discounting is immaterial.

#### b. Impairment of financial assets

#### 2018

At the end of each reporting period, the Group recognizes a loss allowance for expected credit losses ("ECL") for financial assets at amortized cost (including accounts receivable).

The loss allowance for accounts receivable is measured at an amount equal to lifetime expected credit losses. For other financial assets when the credit risk on the financial instrument has not increased significantly since initial recognition, a loss allowance is recognized at an amount equal to 12-month ECL. If, on the other hand, there has been a significant increase in credit risk since initial recognition, a loss allowance is recognized at an amount equal to lifetime ECL.

ECL reflect the weighted average of credit losses with the respective risks of a default occurring as the weights. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The Group recognizes an impairment loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

#### 2017

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

The objective evidence of impairment for trade receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments past the average credit period, the information which correlates with default on receivables, as well as observable changes in national or local economic conditions that correlate with default on receivables. The amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

For available-for-sale equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment. When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the period.

In respect of available-for-sale equity securities, impairment loss previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of available-for-sale debt securities, impairment loss are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivable where the carrying amount is reduced through the use of an allowance account. When accounts receivable are considered uncollectable, the amount is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

## c. Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset to another entity. Before 2018, on derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss which had been recognized in other comprehensive income is recognized in profit or loss. Starting from 2018, on derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. However, on derecognition of an investment in an equity instrument at FVTOCI, the cumulative gain or loss that had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

#### d. Financial liabilities

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either held for trading or it is designated as at fair value through profit or loss. Financial liabilities at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

Other financial liabilities are measured at amortized cost using the effective interest method.

# e. Dercognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

#### f. Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to foreign exchange rate risks, including foreign exchange forward contracts and cross currency swaps.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship. When the fair value of derivative financial instruments is positive, the derivative is recognized as a financial asset; when the fair value of derivative financial instruments is negative, the derivative is recognized as a financial liability.

#### **Inventories**

Inventories consist of raw materials, supplies, finished goods and work-in-process. The cost of raw materials and supplies are recognized using moving average method and finished goods and work-in-process are recorded at standard cost and adjusted to approximate weighted-average cost at the end of the reporting period. Inventories are stated at the lower of cost or net realizable value, and evaluated and recognized appropriate allowance for devaluation based on the amount of inventories and sales situation. Inventory write-downs are made by item, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

## **Property, Plant and Equipment**

Property, plant and equipment are stated at cost less recognized accumulated depreciation and accumulated impairment loss.

Property, plant and equipment in the course of construction are carried at cost, less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Depreciation is recognized using the straight-line method over the following estimated useful life after considering residual values: buildings 8-20 years, machinery and equipment 3-5 years and other equipment 5 years. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

# **Investment Properties**

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss, and depreciated 20 years useful life after considering residual values, using the straight-line method. Any gain or loss arising on derecognition of the property is calculated as the difference between the net disposal proceeds and the carrying amount of the asset and is included in profit or loss in the period in which the property is derecognized.

## **Intangible Assets**

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized using the straight-line method over the following estimated useful life of the assets: Deferred technical assets - economic life or contract period and other intangible assets 3-5 years. The estimated useful life, residual value, and amortization method are reviewed at the end of each reporting period with the effect of any changes in estimate accounted for on a prospective basis.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

#### **Impairment of Tangible and Intangible Assets**

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Recoverable amount is the higher of fair value less costs to sell and value in use.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit or assets related to contract cost is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

When an impairment loss is subsequently reversed, the reversed carrying amount does not exceed the carrying amount (reduce amortization or depreciation) that would have been determined had no impairment loss been recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

#### **Products Guarantee Based on Commitment**

The Group would estimate guarantee provision by the appropriate ratio when the related product sold.

#### **Revenue Recognition**

#### 2018

The Group identifies the performance obligations in the contract with customers, allocates the transaction price to the performance obligations in the contracts and recognises revenue when (or as) the entity satisfies a performance obligation.

#### 2017

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Allowances for sales returns are recognized at the time of sale based on the seller's reliable estimate of future returns; Liabilities for returns are recognized based on previous experience and other relevant factors. Sale of goods is recognized when the goods are delivered and the ownership of goods is transferred to the buyer.

#### Leasing

The lease terms of the Group does not transfer substantially all the risks and rewards of ownership to the lessee. All the leases are classified as operating lease. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. As lessee, operating lease payments are recognized as an expense on a straight-line basis over the lease period. Under operating lease, contingent rents payable arising are recognized as an expense in the period in which they are incurred.

#### **Employee Benefits**

#### a. Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

#### b. Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost and net interest on the net defined benefit liability are recognized as employee benefits expense in the period they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets excluding interest, is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liability represents the actual deficit in the Group's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### a. Current tax

According to the Income Tax Law, an additional tax of unappropriated earnings is provided for as income tax in the year the shareholders approve to retain the earnings. Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

# b. Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and it is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit.

Deferred tax assets arising from deductible temporary differences associated with investments in subsidiaries are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The Group's critical accounting judgments and key sources of estimation uncertainty are described below:

## **Valuation of Inventory**

Net realizable value of inventory is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The estimation of net realizable value is based on current market conditions and the historical experience from selling products of a similar nature. Changes in market conditions may have a material impact on the estimation of net realizable value.

# 6. CASH AND CASH EQUIVALENTS

|  | December 31             |                        |  |
|--|-------------------------|------------------------|--|
|  | 2018                    | 2017                   |  |
| Cash and cash in bank<br>Repurchase agreements collateralized by bonds | \$ 1,420,618<br>123,300 | \$ 1,372,679<br>44,350 |  |
|  | \$ 1,543,918            | <u>\$ 1,417,029</u>    |  |

a. The Group has time deposits pledged to secure land leases and customs tariff obligations which are reclassified as "refundable deposits paid" as follows:

|               | Decem            | December 31      |  |
|---------------|------------------|------------------|--|
|               | 2018             | 2017             |  |
| Time deposits | <u>\$ 72,074</u> | <u>\$ 62,213</u> |  |

b. The Group has time deposits which are not held for the purpose of meeting short-term cash commitments and are reclassified to "other receivables" as follows (Note 9):

|          | Decem             | ber 31            |
|----------|-------------------|-------------------|
|          | 2018              | 2017              |
| deposits | <u>\$ 145,654</u> | <u>\$ 339,541</u> |

#### 7. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

|                                     | December 31   |                 |
|-------------------------------------|---------------|-----------------|
|                                     | 2018          | 2017            |
| Financial assets at FVTPL - current |               |                 |
| Foreign exchange forward contracts  | <u>\$ 763</u> | <u>\$ 1,710</u> |

At the end of the reporting period, outstanding foreign exchange forward contracts not under hedge accounting were as follows:

|                                 | Currencies | Maturity Date         | Contract Amount (In Thousands) |
|---------------------------------|------------|-----------------------|--------------------------------|
| <u>December 31, 2018</u>        |            |                       |                                |
| Sell forward exchange contracts | USD/NTD    | 2019.01.04-2019.02.21 | USD17,000/NTD521,731           |
| <u>December 31, 2017</u>        |            |                       |                                |
| Sell forward exchange contracts | USD/NTD    | 2018.01.05-2018.01.25 | USD11,000/NTD329,070           |

The Group entered into forward exchange contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities. The forward exchange contracts entered into by the Group did not meet the criteria for hedge accounting, therefore, the Group did not apply hedge accounting treatment for forward exchange contracts.

#### 8. NOTES AND ACCOUNTS RECEIVABLE

|   | December 31           |                     |
|---|-----------------------|---------------------|
|   | 2018                  | 2017                |
| Notes receivable  | \$ -                  | \$ -                |
| Accounts receivable   |                       |                     |
| At amortized cost Gross carrying amount Less: Allowance for impairment loss | 1,017,582<br>(20,499) | 810,766<br>(16,388) |
|   | <u>\$ 997,083</u>     | <u>\$ 794,378</u>   |

# <u>2018</u>

The average credit period of sales of goods was 30-60 days. No interest was charged on accounts receivable. The Group adopted a policy of only dealing with entities that are rated the equivalent of investment grade or higher and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group uses other publicly available financial information or its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored. Credit exposure is controlled by counterparty limits that are reviewed and approved by the financial department annually.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of lifetime expected loss provision for all accounts receivable. The expected credit losses on accounts receivable are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group estimates expected credit losses based on past due days. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off accounts receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For accounts receivable that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of accounts receivable based on the Group's provision matrix.

# December 31, 2018

|  | Not Overdue              | Overdue<br>under 30 Days | Overdue<br>31-90 Days | Overdue 91-<br>180 Days | Over 180 Days | Total                    |
|--|--------------------------|--------------------------|-----------------------|-------------------------|---------------|--------------------------|
| Expected credit loss rate                              | 2%                       | 2%                       | 10%                   | 20%                     | 50%           |                          |
| Gross carrying amount<br>Loss allowance (lifetime ECL) | \$ 1,004,975<br>(20,246) | \$ 12,607<br>(253)       | \$ -<br>-             | \$ -<br>-               | \$ -<br>-     | \$ 1,017,582<br>(20,499) |
| Amortized cost   | <u>\$ 984,729</u>        | <u>\$ 12,354</u>         | <u>\$</u>             | <u>\$</u>               | <u>\$ -</u>   | <u>\$ 997,083</u>        |

The movements of the loss allowance of accounts receivable were as follows:

|   | 2018             |
|---|------------------|
| Balance at January 1 (IAS 39)                       | \$ 16,388        |
| Adjustment on initial application of IFRS 9         |                  |
| Balance at January 1 (IFRS 9)                       | 16,388           |
| Net remeasurement of expected credit loss allowance | 3,855            |
| Effect of exchange rate changes                     | <u>256</u>       |
| Balance at December 31                              | <u>\$ 20,499</u> |
| <u>2017</u>   |                  |

The Group applied the same credit policy in 2018 and 2017. Allowance for doubtful accounts is based on estimated uncollectable amounts determined by reference to the aging of receivables, past dealing experience with the counterparties and an analysis of their respective financial positions.

The aging of accounts receivable was as follows:

|                            | December 31,<br>2017 |
|----------------------------|----------------------|
| Not overdue                | \$ 723,029           |
| Overdue under 30 days      | 36,623               |
| Overdue 31-90 days         | -                    |
| Overdue 91 days and longer | <del>-</del>         |
|                            | <u>\$ 759,652</u>    |

The movements of the allowance for doubtful accounts were as follows:

|  | For the Year<br>Ended<br>December 31,<br>2017 |
|--|---|
| Balance at January 1<br>Provision (reversed) | \$ 16,743<br>66                               |
| Effect of exchange rate changes              | (42 <u>1</u> )                                |
| Balance at December 31                       | <u>\$ 16,388</u>                              |

The Group's provision losses on accounts receivable were recognized on a collective basis.

# 9. OTHER RECEIVABLES

|  | December 31                   |                                |
|--|-------------------------------|--------------------------------|
|  | 2018                          | 2017                           |
| Time deposits (Note 6) Business tax refund receivable Others | \$ 145,654<br>26,477<br>9,266 | \$ 339,541<br>26,325<br>10,379 |
|  | <u>\$ 181,397</u>             | <u>\$ 376,245</u>              |

#### 10. INVENTORIES

|                            | December 31  |              |
|----------------------------|--------------|--------------|
|                            | 2018         | 2017         |
| Raw materials and supplies | \$ 123,949   | \$ 86,115    |
| Work-in-process            | 1,062,207    | 1,128,123    |
| Finished goods             | 342,307      | 338,558      |
| Inventories in transit     | 32,475       | 81,522       |
|                            | \$ 1,560,938 | \$ 1,634,318 |

- a. As of December 31, 2018 and 2017, the allowance for inventory devaluation was \$329,049 thousand and \$297,684 thousand, respectively.
- b. The operating cost for the years ended December 31, 2018 and 2017 was \$6,127,054 thousand and \$5,502,875 thousand, respectively. The cost of goods sold included inventory write-downs and obsolescence and abandonment of inventories in the amounts of \$44,388 thousand and \$33,349 thousand for the years ended December 31, 2018 and 2017, respectively.

# 11. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME, - 2018

Equity instruments at FVTOCI:

|                                     | December 31,<br>2018 |
|-------------------------------------|----------------------|
| Domestic listed and emerging stocks |                      |
| Nyquest Technology Co., Ltd.        | \$ 120,209           |
| Brightek Optoelectronic Co., Ltd.   | 341                  |
| Non-listed stocks                   |                      |
| United Industrial Gases Co., Ltd.   | 396,000              |
| Yu-Ji Venture Capital Co., Ltd.     | 22,733               |
|                                     | <u>\$ 539,283</u>    |

These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes. These investments in equity instruments were classified as available-for-sale and financial assets measured at cost under IAS 39. Refer to Note 3, Note 12 and Note 13 for information relating to their reclassification and comparative information for 2017.

In 2018, the Group sold part of its shares of Nyquest Technology Co., Ltd. based on the fair value amounted to \$5,850 thousand in order to manage its investment concentration risk, and it transferred \$3,228 thousand from other equity to retained earnings, refer to Note 19 for related information.

The Group recognized dividend income \$73,322 thousand for the year ended December 31, 2018. To elaborate, the amount related to investments derecognition for the year ended December 31, 2018 was \$648 thousand. The amount related to investments held at the end of the year was \$72,674 thousand for the year ended December 31, 2018.

#### 12. AVAILABLE-FOR-SALE FINANCIAL ASSETS - 2017

|                                      | December 31,<br>2017 |
|--------------------------------------|----------------------|
| Domestic listed investment (Note 11) |                      |
| Nyquest Technology Co., Ltd.         | <u>\$ 289,789</u>    |

#### 13. FINANCIAL ASSETS MEASURED AT COST - 2017

|   | December 31,<br>2017 |
|---|----------------------|
| Non-listed investment (Note 11)                                     |                      |
| United Industrial Gases Co., Ltd. Brightek Optoelectronic Co., Ltd. | \$ 280,000<br>493    |
| Yu-Ji Venture Capital Co., Ltd.                                     | 21,000               |
|   | <u>\$ 301,493</u>    |

Management believed that the above non-listed traded investments held by the Group have fair value that cannot be reliably measured because the range of reasonable fair value estimates was so significant and various estimates cannot be reasonably estimated; therefore, they were measured at cost less impairment at the end of reporting period.

#### 18. RETIREMENT BENEFIT PLANS

#### a. Defined contribution plan

The Company adopted a pension plan under the Labor Pension Act (the "LPA"), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

The Group's subsidiaries in the United States, Hong Kong, Israel and China are members of local state-managed defined contribution plan. The Group contributes a specified percentage of employees' payroll to the retirement fund. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

#### b. Defined benefit plan

The defined benefit plan adopted by the Company in accordance with the Labor Standards Law is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. In 2018 and 2017, the Company contributed amounts equal to 15% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Company assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Company is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor ("the Bureau"); the Company has no right to influence the investment policy and strategy.

The payables for employee turnover of NTIL are calculated on the basis of the length of service and the last monthly salary under a defined benefit plan.

The amounts included in the consolidated balance sheets in respect of the Group's defined benefit plans were as follows:

|  | December 31               |                           |  |

| Balance at December 31, 2018                 | <u>\$ 1,282,657</u>                                      | \$ (988,230)                     | \$ 294,427<br>(Concluded)                   |

The amounts recognized in profit or loss in respect of these defined benefit plans were as follows:

|                                     | For the Year Ended December 31 |          |
|-------------------------------------|--------------------------------|----------|
|                                     | 2018                           | 2017     |
| Analysis by function                |                                |          |
| Operating costs                     | \$ 6,932                       | \$ 7,833 |
| Selling expenses                    | 105                            | 96       |
| General and administrative expenses | 5,334                          | 6,714    |
| Research and development expenses   | 27,918                         | 32,038   |

\$ 40,289 \$ 46,681

Through the defined benefit plans under the Labor Standards Law, the Group is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the debt investments of the plan assets.
- 3) Salary risk: The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations were as follows:

|                                     | December 31 |             |
|-------------------------------------|-------------|-------------|
|                                     | 2018        | 2017        |
| Discount rate(s)                    | 1.25%-3.58% | 1.50%-4.68% |
| Expected rate(s) of salary increase | 1%-2%       | 1%-2%       |

If possible reasonable change in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation would increase (decrease) as follows:

|                                     | Decem              | December 31        |  |
|-------------------------------------|--------------------|--------------------|--|
|                                     | 2018               | 2017               |  |
| Discount rate(s)                    |                    |                    |  |
| 0.25% increase                      | \$ (28,655)        | \$ (29,625)        |  |
| 0.25% decrease                      | \$ 31,173          | \$ 33,284          |  |
| Expected rate(s) of salary increase |                    |                    |  |
| 0.25% increase                      | <u>\$ 29,060</u>   | <u>\$ 30,320</u>   |  |
| 0.25% decrease                      | <u>\$ (26,038)</u> | <u>\$ (26,839)</u> |  |

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

|  | December 31       |                   |
|--|-------------------|-------------------|
|  | 2018              | 2017              |
| The expected contributions to the plan for the next year | <u>\$ 117,978</u> | <u>\$ 121,702</u> |
| The average duration of the defined benefit obligation   | 9.4-13.17 years   | 9.8-13.46 years   |

#### 19. EQUITY

#### a. Share capital

|                                       | December 31         |              |
|---------------------------------------|---------------------|--------------|
|                                       | 2018                | 2017         |
| Authorized shares (in thousands)      | 300,000             | 300,000      |
| Authorized capital                    | \$ 3,000,000        | \$ 3,000,000 |
| Issued and paid shares (in thousands) | 207,554             | 207,554      |
| Issued capital                        | <u>\$ 2,075,544</u> | \$ 2,075,544 |
| Par value (in New Taiwan dollars)     | <u>\$ 10</u>        | <u>\$ 10</u> |

As of December 31, 2018 and 2017, the balance of the Company's capital account amounted to \$2,075,544 thousand, divided into 207,554 thousand ordinary shares at a par of NT\$10.

#### b. Capital surplus

|  | December 31 |                  |
|--|-------------|------------------|
|  | 2018        | 2017             |
| May be used to offset a deficit, distributed as cash dividends, or transferred to capital* |             |                  |
| Additional paid-in capital   | \$ 63,485   | \$ 63,485        |
| May not be used for any purpose  |             |                  |
| Employee share options   | 13          | 13               |
|  | \$ 63,498   | <u>\$ 63,498</u> |

<sup>\*</sup> Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, it can be distributed in cash or transferred to capital (limited to a certain percentage of the Company's paid-in capital and once a year).

#### c. Retained earnings and dividend policy

Under the dividends policy as set forth in the Company's Articles of Incorporation (the "Articles"), if the Company has surplus earnings at the end of a fiscal year, after covering all losses incurred in previous years and paying all taxes, the Company shall set aside 10% of said earnings as legal reserve. However, legal reserve need not be made when the accumulated legal reserve equals the paid-in capital of the Company. After setting aside or reversing special reserve pursuant to applicable laws and regulations and orders of competent authorities from (1) the remaining amount plus undistributed retained earnings; or (2) the difference between the undistributed retained earnings and the losses suffered by the Company at the end of a fiscal year if the losses can be fully covered by the undistributed retained earnings, the Company shall distribute the remaining amount (if not otherwise set aside as special reserve and reserved based on business needs) and shall be used by the Company's Board of Directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for bonus to shareholders. In principle, not less than 10% of the total shareholders bonus shall be distributed in form of cash. For the policies on distribution of employees' compensation and remuneration to directors, refer to Note 22 "Employee benefits expense".

The appropriation for legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of the Company's earnings for 2017 and 2016 had been approved in the shareholders' meetings on June 12, 2018 and June 14, 2017, respectively. The appropriations and dividends per share were as follows:

|                                 | Appropriatio      | Appropriation of Earnings |                  | Per Share<br>Γ\$) |
|---------------------------------|-------------------|---------------------------|------------------|-------------------|
|                                 | For<br>Year 2017  | For<br>Year 2016          | For<br>Year 2017 | For<br>Year 2016  |
| Legal reserve<br>Cash dividends | \$ 68,813<br>     | \$ 61,316<br>498,131      | \$2.50           | \$2.40            |
|                                 | <u>\$ 587,699</u> | \$ 559,447                |                  |                   |

The appropriations of the Company's earnings for 2018 had been approved in the Board of Directors' meeting on February 1, 2019. The appropriations and dividends per share were as follows:

|                | Appropriation of Earnings | Dividends Per<br>Share (NT\$) |
|----------------|---------------------------|-------------------------------|
| Legal reserve  | \$ 71,063                 |                               |
| Cash dividends | 518,886                   | \$2.50                        |

The appropriations of earnings for 2018 will be presented for approval in the shareholders' meeting to be held on June 24, 2019.

# d. Other equity items

1) The exchange differences arising on translation of foreign operations' net assets from its functional currency to the Group's presentation currency (New Taiwan dollar) are recognized directly in other comprehensive income. As of December 31, 2018 and 2017, other comprehensive loss was \$10,370 thousand and \$29,445 thousand, respectively.

# 2) Unrealized gain/(loss) on financial assets at FVTOCI

|   | For the Year<br>Ended<br>December 31,<br>2018 |

# 20. REVENUE

Refer to Note 32 for the Group's revenue.

# 21. INCOME TAXES RELATING TO CONTINUING OPERATIONS

a. Income tax recognized in profit or loss

The major components of income tax expense were as follows:

|  | For the Year Ended December 31 |                   |
|--|--------------------------------|-------------------|
|  | 2018                           | 2017              |
| Current income tax expense                               |                                |                   |
| In respect of the current year                           | \$ 102,725                     | \$ 113,083        |
| Adjustment for prior years' tax and effects of estimated |                                |                   |
| difference   | 41,220                         | (14)              |
| Deferred income tax                                      |                                |                   |
| In respect of the current year                           | (3,658)                        | (1,771)           |
| Effect of tax rate changes                               | (12,000)                       |                   |
| Income tax expense recognized in profit or loss          | <u>\$ 128,287</u>              | <u>\$ 111,298</u> |

b. Reconciliation of accounting profit and income tax expense is as follows:

|  | For the Year Ended December 31 |             |
|--|--------------------------------|-------------|
|  | 2018                           | 2017        |
| Income tax expense from continuing operations at the statutory | \$ 167.031                     | ¢ 142.072   |
| rate Tax effect of adjustment item                             | \$ 167,031                     | \$ 143,973  |
| Permanent differences  | (27,964)                       | (22,102)    |
| Tax-exempt income  | (14,000)                       | (10,000)    |
| Others   | 17,658                         | 21,212      |
| Additional income tax on unappropriated earnings               | 8,149                          | 1,967       |
| Current income tax credit                                      | (48,149)                       | (21,967)    |
| Current income tax   | 102,725                        | 113,083     |
| Deferred income tax  | (15,658)                       | (1,771)     |
|  |                                | (Continued) |

In 2017, the applicable corporate income tax rate used by the group entities in the ROC is 17%. However, the Income Tax Act was amended in 2018, and the corporate income tax rate was adjusted from 17% to 20%, effective in 2018. In addition, the rate of the corporate surtax applicable to the 2018 unappropriated earnings will be reduced from 10% to 5%. The applicable tax rate used by subsidiaries in China is 25%. Tax rates used by other group entities operating in other jurisdictions are based on the tax laws in those jurisdictions.

As the shareholders meeting haven't resolved the appropriation of earnings for 2018, the potential income tax consequences of the 2018 unappropriated earnings are not reliably determinable.

| Depreciation              |                                  | 97,217  |    | 62,088    |   | 4,696 | 164,001      |                                     | 95,807  | 54,677   |    | 4,641 | 155,125      |
| Amortization              |                                  | 33,330  |    | 53,477    |   | -     | 86,807       |                                     | 33,294  | 54,939   |    | -     | 88,233       |

To be in compliance with the Company Act, the Company stipulated to distribute employees' compensation and remuneration to directors at the rates no less than 1% and no higher than 1%, respectively, of profit before income tax, employees' compensation, and remuneration to directors.

The employees' compensation and remuneration to directors for 2018 and 2017 which have been approved in the Board of Directors' meetings on February 1, 2019 and January 26, 2018, respectively, were as follows:

|                              | For the Year Ended December 31 |      |           |   |  |
|------------------------------|--------------------------------|------|-----------|---|--|
|                              | 2018                           | 2017 |           |   |  |
|                              | Amount                         | %    | Amount    | % |  |
| Employees' cash compensation | \$ 50,428                      | 6    | \$ 49,360 | 6 |  |
| Remuneration of directors    | 8,405                          | 1    | 8,227     | 1 |  |

If there is a change in the proposed amounts after the annual consolidated financial statements were authorized for issue, the differences are recorded as a change in accounting estimate. There was no difference between the actual amounts of employees' compensation and remuneration to directors and supervisors paid and the amounts recognized in the financial statements for the year ended December 31, 2017 and 2016.

Information on the employees' compensation and remuneration to directors resolved by the Company's Board of Directors in 2019 and 2018 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

#### 23. EARNINGS PER SHARE

The numerators and denominators used in calculating basic and diluted earnings per share ("EPS") were as follows:

| For the year ended December 31, 2018   | Amounts<br>(Numerator) | Shares<br>(Denominator)<br>(In Thousands) | EPS (NT\$)          |
|--|------------------------|---|---------------------|
| Net profit   | \$ 710,633             |   |                     |
| Basic EPS Earnings used in the computation of basic EPS Effect of potentially dilutive ordinary shares | 710,633                | 207,554                                   | \$ 3.42             |
| Employee's compensation  |                        | 1,270                                     |                     |
| Diluted EPS Earnings used in the computation of diluted EPS  | <u>\$ 710,633</u>      | 208,824                                   | \$ 3.40 (Continued) |

**Shares** 

|   | Amounts<br>(Numerator) | (Denominator)<br>(In Thousands) | EPS (NT\$)       |
|---|------------------------|---------------------------------|------------------|
| For the year ended December 31, 2017                                      |                        |                                 |                  |
| Net profit Basic EPS  | \$ 688,133             |                                 |                  |
| Earnings used in the computation of basic EPS                             | 688,133                | 207,554                         | \$ 3.32          |
| Effect of potentially dilutive ordinary shares<br>Employee's compensation | <del>_</del>           | <u>771</u>                      |                  |
| Diluted EPS   |                        |                                 |                  |
| Earnings used in the computation of diluted EPS                           | <u>\$ 688,133</u>      | 208,325                         | 3.30 (Concluded) |

If the Company offered to settle compensation paid to employees in cash or shares, the Company assumed the entire amount of the compensation would be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted EPS, as the effect is dilutive. The number of shares used in the computation of diluted EPS is estimated by the amount of compensation divided by the closing price of the potential common shares at the end of the reporting period. Such dilutive effect of the potential shares was included in the computation of diluted EPS until the number of shares to be distributed to employees is resolved in the following year.

#### 24. OPERATING LEASE ARRANGEMENTS

#### The Group as Lessee

#### a. Lease arrangements

The Company leased land from Science Park Administration, and the lease term will expire in December 2027, but can be extended after the expiration of the lease.

The Company leased land from Taiwan Sugar Corporation under a twenty-year term from October 2014 to September 2034, which can be extended after the expiration of the lease. The chairman of the Company is a joint guarantor of such lease; please refer to Note 27.

The Group leased some of offices in the United States, China, Israel, India and Taiwan, and these leases will expire between 2020 and 2026, but can be extended after the expiration of the lease periods.

As of December 31, 2018 and 2017, deposits paid under operating leases amounted to \$36,168 thousand and \$36,221 thousand, respectively.

#### b. Prepayments for lease obligations

|   | December 31               |                           |  |
|---|---------------------------|---------------------------|--|
|   | 2018                      | 2017                      |  |
| Current (recorded as "other current assets") Non-current (recorded as "other non-current assets") | \$ 3,463<br><u>35,129</u> | \$ 3,445<br><u>37,510</u> |  |
|   | \$ 38,592                 | \$ 40,95 <u>5</u>         |  |

Prepaid lease payments include Taiwan Sugar Corporation's land use right, which is located in Tainan.

#### c. Lease expense

|                   | For the Year End  | led December 31   |
|-------------------|-------------------|-------------------|
|                   | 2018              | 2017              |
| Lease expenditure | <u>\$ 108,879</u> | <u>\$ 109,315</u> |

# The Group as Lessor

# Operating lease agreements

Operating leases relate to the leasing of investment property with lease terms of 3 years, and with an extension option. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have a bargain purchase option to acquire the property at the expiry of the lease period.

As of December 31, 2018 and 2017, refundable deposits received under operating leases amounted to \$2,137 thousand and \$2,181 thousand, respectively (recorded as "other non-current liabilities").

#### 25. CAPITAL MANAGEMENT

The Group's capital management objective is to ensure it has the necessary financial resources and operational plan so that it can cope with the next twelve months working capital requirements, capital expenditures, research and development expenses, debt repayments and dividends payments.

#### 26. FINANCIAL INSTRUMENT

# a. Categories of financial instruments

#### b. Fair value information

- 1) The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance in its entirety, which are described as follows:
  - a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
  - b) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
  - c) Level 3 inputs are unobservable inputs for the asset or liability.
- 2) Fair value measurements recognized in the consolidated balance sheets
  - a) The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed shares and emerging shares).
  - b) The fair value of the financial instruments at fair value through profit or loss is based on Level 2 inputs, either directly or indirectly. The fair value of foreign-currency derivative financial instrument could be determined by reference to the price and discount rate of currency swap quoted by financial institutions. Foreign exchange forward contracts use individual maturity rate to calculate the fair value of each contract.

- c) Domestic unlisted equity instrument at FVTOCI were all measured based on Level 3. Fair values of the above equity instruments were determined using comparable listed company approach, refer to strike price of similar business at active market, implied value multiple of the price and relevant information. Significant unobservable inputs included PE ratio, value multiple and market liquidity discount.
- 3) Financial instruments that are not measured at fair value

Management believes the carrying amounts of financial assets and financial liabilities that are not measured at fair value recognized in the financial statements approximate their fair values.

4) Fair value of financial instruments that are measured at fair value on a recurring basis

The emerging securities held by the Group were determined as active market, and were transferred from Level 2 to Level 1 this year.

## c. Financial risk management objectives and policies

The Group sought to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Group's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, and use of financial derivatives. Compliance with policies and exposure limits was reviewed by the internal auditors on a continuous basis.

#### 1) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group uses forward foreign exchange contracts to hedge the foreign currency risk on export.

#### a) Foreign currency risk

The Group is engaged in foreign currency transaction and thus it is exposed to the risk of changes in foreign currency exchange rates. The Group uses forward foreign exchange contracts to hedge the exchange rate risk within approved policy parameters utilizing forward foreign exchange contracts.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are set out in Note 31.

The sensitivity analysis included only outstanding foreign currency denominated monetary items at the end of the reporting period and assuming an increase in net income and equity if New Taiwan dollars strengthen by 1% against foreign currencies. For a 1% weakening of New Taiwan dollars against the relevant currency, there would be impact on net income in the amounts of \$4,077 thousand and \$2,429 thousand decrease for the years ended December 31, 2018 and 2017, respectively. The amounts included above for a 1% weakening of New Taiwan dollars against the relevant currency is without considering the impact of hedge contracts and hedged item.

## b) Interest rate risk

Interest rate risk refers to the risk that the change in market value will influence the fair value of financial instruments. The Group's interest rate risk arises primarily from floating rate deposits.

As of December 31, 2018 and 2017, the carrying amount of the Group's floating rate deposits with exposure to interest rates was \$108,266 thousand and \$8,319 thousand, respectively.

The sensitivity analyses below were determined based on the Group's exposure to interest rates for fair value of variable-rate derivative instruments at the end of the reporting period. If interest rates had been higher by one percentage point, the Group's cash flows for the year ended December 31, 2018 and 2017 would have increased by \$1,083 thousand and \$83 thousand, respectively.

#### 2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In this regard, the management of the Group consider that the Group's credit risk was significantly reduced.

# 3) Liquidity risk

The Group has enough operating capital to comply with loan covenants; liquidity risk is low.

The Group's non-derivative financial liabilities and their agreed repayment period were as follows:

|                                      | <b>December 31, 2018</b> |                         |              |                     |  |  |  |  |

Sales and purchase of goods with related party were conducted under normal prices and terms. The trading conditions of other related party transactions were resolved between the Company and related party.

#### c. Guarantee

As of December 31, 2018 the chairman of the Company is a joint guarantor of the land-lease from Taiwan Sugar Corporation. Refer to Note 24.

#### d. Compensation of key management personnel

|   | For the Year Ended December 31 |                    |  |  |  |  |
|---|--------------------------------|--------------------|--|--|--|--|
|   | 2018                           | 2017               |  |  |  |  |
| Short-term employment benefits Post-employment benefits | \$ 74,644<br>2,728             | \$ 82,043<br>3,573 |  |  |  |  |
|   | <u>\$ 77,372</u>               | <u>\$ 85,616</u>   |  |  |  |  |

The remuneration of directors and key management personnel was determined by the remuneration committee based on the performance of individuals and market trends.

# 28. PLEDGED AND COLLATERALIZED ASSETS

Please refer to Note 6.

#### 29. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

As of December 31, 2018 and 2017, amounts available under unused letters of credit were approximately US\$180 thousand and US\$254 thousand, respectively.

# **30. SUBSEQUENT EVENTS**

In January 2019 Microchip Technology Inc. (Listed Company in United States) filed a first Amended Complaint in the District Court for the District of Delaware. Microchip alleges that the Company and NTCA infringe Microchip's patents. The case is still in its initial stage, and its impact on the Company is uncertain for the moment.

#### 31. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by foreign currencies other than functional currency of the Group and the exchange rates between foreign currencies and the functional currency were disclosed. The significant assets and liabilities denominated in foreign currencies were as follows:

|                            |                                     | December 31              |                                     |                                     |                          |                                     |  |  |  |

| Monetary items USD ILS EUR | 17,674<br>12,365<br>536             | 30.715<br>8.1494<br>35.2 | 542,864<br>100,770<br>18,868        | 18,753<br>13,725<br>152             | 29.76<br>8.5791<br>35.57 | 558,087<br>117,745<br>5,396         |  |  |  |

Note: Foreign currencies are exchanged to New Taiwan dollars and displayed as a rate.

The total of realized and unrealized net foreign exchange gains and losses was a net gain of \$20,475 thousand and a net loss of \$3,894 thousand for the years ended December 31, 2018 and 2017, respectively. It is impractical to disclose net foreign exchange gains (losses) by each significant foreign currency due to the variety of the foreign currency transactions of the group entities.

# 32. SEGMENT INFORMATION

- a. Basic information about operating segment
  - 1) Classification of operating segments

The Group's reportable segments under IFRS 8 "Operating Segments" were as follows:

a) General IC product segment general IC product

The general IC product segment engages mainly in research, design, manufacturing, sale and after-sales service.

b) OEM wafer product segment

The OEM wafer product segment engages mainly in research, design, manufacturing and sale.

# 2) Principles of measuring reportable segments, profit, assets and liabilities

The significant accounting principles of each operating segment are the same as those stated in Note 4 to the consolidated financial statements. The Group's operating segment profit or loss represents the profit or loss earned by each segment. The profit or loss is controllable by segment managers and is the basis for assessment of segment performance. Individual segment assets are disclosed as zero since those measures are not reviewed by the chief operating decision maker. Major liabilities are arranged based on the capital cost and deployment of the whole company, which are not controlled by individual segment managers.

## b. Segment revenues and operating results

The following was an analysis of the Group's revenue from continuing operations by reportable segments.

|                                 | Segment              | Revenue             | Segment Profit and Loss |            |  |  |  |
|---------------------------------|----------------------|---------------------|-------------------------|------------|--|--|--|
|                                 |                      | ear Ended           | For the Year Ended      |            |  |  |  |

#### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Nuvoton Technology Corporation

#### **Opinion**

We have audited the accompanying financial statements of Nuvoton Technology Corporation (the Company), which comprise the balance sheets as of December 31, 2018 and 2017, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2018. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# Validity of Sales Revenues

There is significant risk of revenue recognition. In addition, customers' line of credits are highly correlated to delivery of products and recognition of sales revenue. We therefore considered that the validity of sales revenue from the twenty largest customers with changes in credit lines and temporary increase in credit lines in 2018 is a key audit matter for 2018. Refer to Note 4 to the financial statements for the Company's revenue recognition policies.

Our audit procedures in response to the validity of sales revenue included understanding the design and the implementation of internal control of sales revenue and selecting samples of revenue items to ensure the occurrence of transactions.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers,

and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the audit committee) are responsible for overseeing the Company's financial reporting process.

#### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with statements that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended December 31, 2018 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Hung-Bin Yu and Kenny Hong.

Deloitte & Touche Taipei, Taiwan Republic of China

# NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

#### 1. GENERAL INFORMATION

Nuvoton Technology Corporation (the "Company") was incorporated in the Republic of China ("ROC") in April 2008 and commenced business in July 2008. The Company is engaged mainly in the research, design, development, manufacture, and sale of logic integrated circuits ("ICs") and the manufacturing, testing and OEM of 6-inch wafers.

For the specialization and division of labor and the reinforcement of core competitive ability, the Company's parent company, Winbond Electronics Corporation ("WEC"), spun off its Logic IC business into the Company on July 1, 2008 in accordance with the Business Mergers and Acquisitions Act and the Company commenced business in July 2008. WEC held approximately 61% of the ownership interest in the Company as of December 31, 2018 and 2017.

The Company's shares have been listed on the Taiwan Stock Exchange since September 27, 2010.

#### 2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors and authorized for issue on February 1, 2019.

# 3. APPLICATION OF NEW AND REVISED STANDARDS, AMENDMENTS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations of IFRS (IFRIC), and Interpretations of IAS (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

Except for the following, whenever applied, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed and issued into effect by the FSC would not have any material impact on the Company's accounting policies:

1) IFRS 9 "Financial Instruments" and related amendment

IFRS 9 supersedes IAS 39 "Financial Instruments: Recognition and Measurement", with consequential amendments to IFRS 7 "Financial Instruments: Disclosures" and other standards. IFRS 9 sets out the requirements for classification, measurement and impairment of financial assets and hedge accounting. Refer to Note 4 for information relating to the relevant accounting policies.

The requirements for classification, measurement and impairment of financial assets have been applied retrospectively from January 1, 2018, and the requirements for hedge accounting have been applied prospectively. IFRS 9 is not applicable to items that have already been derecognized at December 31, 2017.

#### Classification, measurement and impairment of financial assets

On the basis of the facts and circumstances that existed as at January 1, 2018, the Company has performed an assessment of the classification of recognized financial assets and has elected not to restate prior reporting periods.

The following table shows the original measurement categories and carrying amount under IAS 39 and the new measurement categories and carrying amount under IFRS 9 for each class of the Company's financial assets and financial liabilities as at January 1, 2018.

|   | Measured items    |  |         |                 |   | Carrying amount  |                  |  |    |   |
|---|-------------------|--|---------|-----------------|---|--|------------------|--|----|---|
| Financial assets  |                   | IAS 39   |         |                 | IFRS 9  |  | IAS              | 39   | ]  | IFRS 9  |

| Refundable deposits paid  | Loans a           | nd receivable  | es      | Amo             | ortized cost  |  | 6:               | 5,737  |    | 65,737  |
|   |                   | IAS 39<br>Carrying<br>Amount as<br>of January<br>1, 2018 |         |                 | Remeasure-<br>ments   | IFRS 9<br>Carrying<br>Amount as<br>of January<br>1, 2018 | Ea<br>Eff<br>Jan | tained<br>rnings<br>fect on<br>uary 1,<br>2018 | I  | Other<br>Equity<br>Effect on<br>anuary 1,<br>2018 |
| FVTOCI - Equity instruments Add: From available-fo financial assets (IAS) |                   | \$ -<br>484,692  |         | 4,692<br>4,692) | \$ 153,511  | \$ 638,203   | \$               | 493  | \$ | 153,018   |
| Total   | •                 | \$ 484,692   | \$      | <u>-</u>        | \$ 153,511  | \$ 638,203   | \$               | 493  | \$ | 153,018   |

a) The Company elected to designate all its investments in equity securities previously classified as available-for-sale under IAS 39 as at FVTOCI under IFRS 9, because these investments are not held for trading. As a result, the related other equity - unrealized gain on available-for-sale financial assets of \$226,224 thousand was reclassified to other equity - unrealized gain on financial assets at FVTOCI.

Investments in unlisted shares previously measured at cost under IAS 39 have been designated as at FVTOCI under IFRS 9 and were remeasured at fair value. Consequently, an increase of \$153,018 thousand was recognized in both financial assets at FVTOCI and other equity - unrealized gain on financial assets at FVTOCI on January 1, 2018.

The Company recognized under IAS 39 impairment loss on certain investments in equity securities previously classified as measured at cost and the loss was accumulated in retained earnings. Since those investments were designated as at FVTOCI under IFRS 9 and no impairment assessment is required, an adjustment was made that resulted in a decrease of \$493 thousand in other equity - unrealized gain on financial assets at FVTOCI and an increase of \$493 thousand in retained earnings on January 1, 2018.

- b) Notes receivable, accounts receivable, other receivables and refundable deposits paid that were previously classified as loans and receivables under IAS 39 were classified as measured at amortized cost with an assessment of expected credit losses under IFRS 9.
- 2) IFRS 15 "Revenue from Contracts with Customers" and related amendment

IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 "Revenue", IAS 11 "Construction Contracts" and a number of revenue-related interpretations. Refer to Note 4 for related accounting policies.

3) IFRIC 22 "Foreign Currency Transactions and Advance Consideration"

IAS 21 stipulated that a foreign currency transaction shall be recorded on initial recognition in the functional currency by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. IFRIC 22 further explains that the date of the transaction is the date on which an entity recognizes a non-monetary asset or non-monetary liability from payment or receipt of advance consideration. If there are multiple payments or receipts in advance, the entity shall determine the date of the transaction for each payment or receipt of advance consideration.

The Company applied IFRIC 22 prospectively to all assets, expenses and income recognized on or after January 1, 2018 within the scope of the Interpretation.

b. Amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed by the FSC for application starting from 2019

| Amendments to IAS 28 "Long-term Interests in Associates and Joint Ventures" | January 1, 2019                           |
| IFRIC 23 "Uncertainty over Income Tax Treatments"                           | January 1, 2019                           |

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.
- Note 2: The FSC permits the election for early adoption of the amendments starting from 2018.
- Note 3: The Company shall apply these amendments to plan amendments, curtailments or settlements occurring on or after January 1, 2019.
- 1) IFRS 16 "Leases"

IFRS 16 sets out the accounting standards for leases agreements of lessor and lessee that will supersede IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", and a number of related interpretations.

#### Definition of a lease

Upon initial application of IFRS 16, the Company will elect to apply IFRS 16 only to contracts entered into (or changed) on or after January 1, 2019 in order to determine whether those contracts are, or contain, a lease. Contracts identified as containing a lease under IAS 17 and IFRIC 4 will not be reassessed and will be accounted for in accordance with the transitional provisions under IFRS 16.

#### The Company as lessee

Upon initial application of IFRS 16, except for payments for low-value assets and short-term leases which will be recognized as expenses on a straight-line basis, the Company will recognize right-of-use assets and lease liabilities for all leases on the balance sheets. On the statements of comprehensive income, the Company will present the depreciation expense charged on right-of-use assets separately from the interest expense accrued on lease liabilities and computed using the effective interest method. On the statements of cash flows, cash payments for the principal portion of lease liabilities will be classified within financing activities; cash payments for the interest portion will be classified within operating activities. Currently, payments under operating lease contracts are recognized as expenses on a straight-line basis. Cash flows for operating leases are classified within operating activities on the statements of cash flows. Leased assets and finance lease payables are recognized for contracts classified as finance leases.

The Company will apply IFRS 16 retrospectively with the cumulative effect of the initial application recognized on January 1, 2019 but will not restate comparative information.

## The Company as lessor

Except for sublease transactions, the Company will not make any adjustments for leases in which it is a lessor and will account for leases under IFRS 16 starting from January 1, 2019.

The Company subleased its leasehold assets to a third party. Such sublease is classified as an operating lease under IAS 17. The Company will assess the sublease classification on the basis of the remaining contractual terms and conditions of the head lease and sublease on January 1, 2019.

#### Anticipated impact on assets, liabilities and equity as of January 1, 2019

|   | Carrying<br>Amount as of<br>December 31,<br>2018 | Adjustments<br>Arising from<br>Initial<br>Application | Adjusted<br>Carrying<br>Amount as of<br>January 1, 2019 |  |  |

#### 2) IFRIC 23 "Uncertainty over Income Tax Treatments"

IFRIC 23 clarifies that when there is uncertainty over income tax treatments, the Company should assume that the taxation authority will have full knowledge of all related information when making related examinations. If the Company concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the Company should determine the taxable profit, tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatments used or planned to be used in its income tax filings. If it is not probable that the taxation authority will accept an uncertain tax treatment, the Company should make estimates using either the most likely amount or the expected value of the tax treatment, depending on which method the Company expects to better predict the resolution of the uncertainty. The Company has to reassess its judgments and estimates if facts and circumstances change.

Upon initial application of IFRIC 23, the Company will recognize the cumulative effect of retrospective application in retained earnings on January 1, 2019.

#### c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

| Effective Date<br>announced by IASB (Note 1) |
|--|
| anuary 1, 2020 (Note 2)                      |
| o be determined by IASB                      |
| anuary 1, 2021<br>anuary 1, 2020 (Note 3)    |
| a  |

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.
- Note 2: The Company shall apply these amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.
- Note 3: The Company shall apply these amendments prospectively for annual reporting periods beginning on or after January 1, 2020.

Except for the above impact, as of the date the financial statements were authorized for issue, the Company is continuously assessing the possible impact that the application of other standards and interpretations will have on the Company's financial position and financial performance, and will disclose the relevant impact when the assessment is completed.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Statement of Compliance**

The financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### **Basis of Preparation**

The financial statements have been prepared on the historical cost basis except for financial instruments and defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets that are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The Company uses equity method to account for its investment in subsidiaries for the stand-alone financial statements. The amounts of the net profit, other comprehensive income and total equity in stand-alone financial statements are same with the amounts attributable to the owner of the Company in its consolidated financial statements since there is no difference in accounting treatment between stand-alone basis and consolidated basis.

#### Classification of Current and Non-current Assets and Liabilities

Current assets include cash and cash equivalents and those assets held primarily for trading purposes or to be realized, sold or consumed within twelve months after the reporting period, unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. Current liabilities are obligations incurred for trading purposes or to be settled within twelve months after the reporting period and liabilities that the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period. Except as otherwise mentioned, assets and liabilities that are not classified as current are classified as non-current.

#### **Foreign Currencies**

The financial statements are presented in the Company's functional currency, New Taiwan dollars.

In preparing the financial statements, transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement are recognized in profit or loss in the period they arise.

Exchange differences arising on the retranslation of non-monetary items measured at fair value are included in profit or loss for the period at the rates prevailing at the end of reporting period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

For the purposes of presenting financial statements, the assets and liabilities of the Company's foreign operations are translated into New Taiwan dollars using exchange rate prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, and exchange difference arising are recognized in other comprehensive income.

#### **Cash Equivalents**

Cash equivalents consist of highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

#### **Financial Instruments**

Financial assets and financial liabilities are recognized when an entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities other than financial assets and financial liabilities at fair value through profit or loss(ie.FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

## a. Measurement category

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis, except derivative financial assets which are recognized and derecognized on settlement date basis.

#### 2018

Financial assets are classified into the following categories: Financial assets at FVTPL, financial assets at amortized cost, and equity instruments at FVTOCI.

#### 1) Financial asset at FVTPL

Financial asset is classified as at FVTPL when the financial asset is mandatorily classified or it is designated as at FVTPL. Financial assets mandatorily classified as at FVTPL include investments in equity instruments which are not designated as at FVTOCI and debt instruments that do not meet the amortized cost criteria or the FVOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss does not incorporate any dividend or interest earned on the financial asset. Fair value is determined in the manner described in Note 24.

#### 2) Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost are measured at amortized cost, which equals to gross carrying amount determined by the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for:

- a) Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset; and
- b) Financial assets that are not credit-impaired on purchase or origination but have subsequently become credit-impaired, for which interest income is calculated by applying the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

#### 3) Investments in equity instruments at FVTOCI

On initial recognition, the Company may make an irrevocable election to designate investments in equity instruments as at FVOCI. Designation at FVOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

## 2017

The categories of financial assets held by the Company are financial assets at FVTPL, available-for-sale financial assets, and loans and receivables.

#### 1) Financial assets at fair value through profit or loss

Financial assets are classified as at FVTPL when the financial assets are either held for trading or designated as at fair value through profit or loss. Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

#### 2) Available-for-sale financial assets

Listed shares held by the Company that are traded in an active market are classified as available-for-sale financial assets and are stated at fair value at the end of each reporting period. Changes in the fair value of available-for-sale financial assets are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of or is determined to be impaired.

Dividends on available-for-sale equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment loss at the end of each reporting period and are presented in a separate line item as financial assets carried at cost. If, in a subsequent period, the fair value of the financial assets can be reliably measured, the financial assets are remeasured at fair value. The difference between carrying amount and fair value is recognized in profit or loss or other comprehensive income on financial assets. Any impairment losses are recognized in profit and loss.

# 3) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables including cash and cash equivalent, notes and accounts receivable, account receivable due from related parties, other receivables and refundable deposits paid are measured at amortized cost using the effective interest method, less any impairment, except for short-term receivable when the effect of discounting is immaterial.

#### b. Impairment of financial assets

#### 2018

At the end of each reporting period, the Company recognizes a loss allowance for expected credit losses ("ECL") for financial assets at amortized cost (including accounts receivable).

The loss allowance for accounts receivable is measured at an amount equal to lifetime expected credit losses. For other financial assets when the credit risk on the financial instrument has not increased significantly since initial recognition, a loss allowance is recognized at an amount equal to 12-month ECL. If, on the other hand, there has been a significant increase in credit risk since initial recognition, a loss allowance is recognized at an amount equal to lifetime ECL.

ECL reflect the weighted average of credit losses with the respective risks of a default occurring as the weights. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The Company recognizes an impairment loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

#### 2017

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

The objective evidence of impairment for trade receivables could include the Company's past experience of collecting payments, the delayed payments in past period, the information which correlates with default on receivables, as well as the estimation of future cash flows. The amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

For available-for-sale equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment. When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the period.

In respect of available-for-sale equity securities, impairment loss previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of available-for-sale debt securities, impairment loss are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial

assets with the exception of accounts receivable where the carrying amount is reduced through the use of an allowance account. When accounts receivable are considered uncollectable, the amount is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

#### c. Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset to another entity. Before 2018, on derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss which had been recognized in other comprehensive income is recognized in profit or loss. Starting from 2018, on derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. However, on derecognition of an investment in an equity instrument at FVTOCI, the cumulative gain or loss that had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

#### d. Financial liabilities

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either held for trading or it is designated as at fair value through profit or loss. Financial liabilities at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

Other financial liabilities are measured at amortized cost using the effective interest method.

### e. Dercognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

#### f. Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to foreign exchange rate risks, including foreign exchange forward contracts and cross currency swaps.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship. When the fair value of derivative financial instruments is positive, the derivative is recognized as a financial asset; when the fair value of derivative financial instruments is negative, the derivative is recognized as a financial liability.

#### **Inventories**

Inventories consist of raw materials, supplies, finished goods and work-in-process. The cost of raw materials and supplies are recognized using moving average method and finished goods and work-in-process are recorded at standard cost and adjusted to approximate weighted-average cost at the end of the reporting period. Inventories are stated at the lower of cost or net realizable value, and evaluated and recognized appropriate allowance for devaluation based on the amount of inventories and sales situation. Inventory write-downs are made by item, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

# **Investments Accounted for Using Equity Method**

#### Investment in subsidiaries

Subsidiaries are the entities controlled by the Company. Under the equity method, the investment is initially recognized at cost and the carrying amount is increased or decreased to recognize the Company's share of the profit or loss and other comprehensive income of the subsidiary after the date of acquisition. Besides, the Company also recognizes the Company's share of the change in other equity of the subsidiary.

When the Company's share of losses of a subsidiary equals or exceeds its interest in that subsidiary (which includes any carrying amount of the investment in subsidiary accounted for by the equity method and long-term interests that, in substance, form part of the Company's net investment in the subsidiary), the Company continues recognizing its share of further losses.

When the Company loses control of a subsidiary, it recognizes the investment retained in the former subsidiary at its fair value at the date when control is lost. The difference between the fair value of the retained investment plus any consideration received and the carrying amount of the previous investment at the date when control is lost is recognized as a gain or loss in profit or loss. Besides, the Company accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Company had directly disposed of the related assets or liabilities.

Profits and losses from downstream transactions with a subsidiary are eliminated in full. Profits and losses from upstream transactions with a subsidiary are recognized in the Company's financial statements only to the extent of interests in the subsidiary that are not related to the Company.

## **Property, Plant and Equipment**

Property, plant and equipment are stated at cost less recognized accumulated depreciation and accumulated impairment loss.

Property, plant and equipment in the course of construction are carried at cost, less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Depreciation is recognized using the straight-line method over the following estimated useful life after considering residual values: Buildings 8-20 years, machinery and equipment 3-5 years and other equipment 5 years. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

#### **Intangible Assets**

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized using the straight-line method over the following estimated useful life of the assets: Deferred technical assets - economic life or contract period and other intangible assets 3-5 years. The estimated useful life, residual value, and amortization method are reviewed at the end of each reporting period with the effect of any changes in estimate accounted for on a prospective basis.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

## **Impairment of Tangible and Intangible Assets**

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Recoverable amount is the higher of fair value less costs to sell and value in use.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit or assets related to contract cost is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

When an impairment loss is subsequently reversed, the reversed carrying amount does not exceed the carrying amount (reduce amortization or depreciation) that would have been determined had no impairment loss been recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

#### **Products Guarantee Based on Commitment**

The Company would estimate guarantee provision by the appropriate ratio when the related product sold.

#### **Revenue Recognition**

### <u>2018</u>

The Company identifies the performance obligations in the contract with customers, allocates the transaction price to the performance obligations in the contracts and recognises revenue when (or as) the entity satisfies a performance obligation.

## <u>2017</u>

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Allowances for sales returns are recognized at the time of sale based on the seller's reliable estimate of future returns; liabilities for returns are recognized based on previous experience and other relevant factors. Sale of goods is recognized when the goods are delivered and the ownership of good is transferred to the buyer.

#### Leasing

The lease terms of the Company does not transfer substantially all the risks and rewards of ownership to the lessee. All the leases are classified as operating lease. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. As lessee, operating lease payments are recognized as an expense on a straight-line basis over the lease period. Under operating lease, contingent rents payable arising are recognized as an expense in the period in which they are incurred.

#### **Employee Benefits**

#### a. Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

#### b. Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost and net interest on the net defined benefit liability are recognized as employee benefits expense in the period they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets excluding interest, is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liability represents the actual deficit in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

## a. Current tax

According to the Income Tax Law, an additional tax of unappropriated earnings is provided for as income tax in the year the shareholders approve to retain the earnings. Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

#### b. Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and it is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit.

Deferred tax assets arising from deductible temporary differences associated with investments in subsidiaries are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The Company's critical accounting judgments and key sources of estimation uncertainty are described below:

## Valuation of Inventory

Net realizable value of inventory is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The estimation of net realizable value is based on current market conditions and the historical experience from selling products of a similar nature. Changes in market conditions may have a material impact on the estimation of net realizable value.

## 6. CASH AND CASH EQUIVALENTS

|  | December 31       |                      |  |  |
|--|-------------------|----------------------|--|--|
|  | 2018              | 2017                 |  |  |
| Cash and cash in bank<br>Repurchase agreements collateralized by bonds | \$ 836,993<br>    | \$ 563,155<br>44,350 |  |  |
|  | <u>\$ 960,293</u> | <u>\$ 607,505</u>    |  |  |

a. The Company has time deposits pledged to secure land leases and customs tariff obligations which are reclassified as "refundable deposits paid" as follows:

|               | Decem     | iber 31   |
|---------------|-----------|-----------|
|               | 2018      | 2017      |
| Time deposits | \$ 72,074 | \$ 62,213 |

b. The Company has time deposits which are not held for the purpose of meeting short-term cash commitments and are reclassified to "other receivables" as follows:

|               | Decen     | December 31       |  |
|---------------|-----------|-------------------|--|
|               | 2018      | 2017              |  |
| Time deposits | <u>\$</u> | <u>\$ 318,600</u> |  |

#### 7. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

|                                     | December 31   |                 |
|-------------------------------------|---------------|-----------------|
|                                     | 2018          | 2017            |
| Financial assets at FVTPL - current |               |                 |
| Foreign exchange forward contracts  | <u>\$ 763</u> | <u>\$ 1,710</u> |

At the end of the reporting period, outstanding foreign exchange forward contracts not under hedge accounting were as follows:

|                                 | Currencies | Maturity Date         | Contract Amount (In Thousands) |
|---------------------------------|------------|-----------------------|--------------------------------|
| <u>December 31, 2018</u>        |            |                       |                                |
| Sell forward exchange contracts | USD/NTD    | 2019.01.04-2019.02.21 | USD17,000/NTD521,731           |
| <u>December 31, 2017</u>        |            |                       |                                |
| Sell forward exchange contracts | USD/NTD    | 2018.01.05-2018.01.25 | USD11,000/NTD329,070           |

The Company entered into forward exchange contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities. The forward exchange contracts entered into by the Company did not meet the criteria for hedge accounting, therefore, the Company did not apply hedge accounting treatment for forward exchange contracts.

#### 8. NOTES AND ACCOUNTS RECEIVABLE

|   | December 31         |                     |  |

| At amortized cost Gross carrying amount Less: Allowance for impairment loss | 947,716<br>(13,688) | 783,958<br>(12,285) |  |
|   | \$ 934,028          | \$ 771,673          |  |

#### 2018

The average credit period of sales of goods was 30-60 days. No interest was charged on accounts receivable. The Company adopted a policy of only dealing with entities that are rated the equivalent of investment grade or higher and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company uses other publicly available financial information or its own trading records to rate its major customers. The Company's exposure and the credit ratings of its counterparties are continuously monitored. Credit exposure is controlled by counterparty limits that are reviewed and approved by the financial department annually.

In order to minimize credit risk, the management of the Company has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Company reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Company's credit risk was significantly reduced.

The Company applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of lifetime expected loss provision for all accounts receivable. The expected credit losses on accounts receivable are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Company estimates expected credit losses based on past due days. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Company's different customer base.

The Company writes off accounts receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For accounts receivable that have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of accounts receivable based on the Company's provision matrix.

### December 31, 2018

|                                      | Not<br>Overdue | Overdue<br>under 30<br>Days | Overdue<br>31-90 Days | Overdue<br>91-180<br>Days | Over 180<br>Days | Total     |
|--------------------------------------|----------------|-----------------------------|-----------------------|---------------------------|------------------|-----------|
| Expected credit loss rate            | 2%             | 2%                          | 10%                   | 20%                       | 50%              |           |
| Gross carrying amount Loss allowance | \$939,082      | \$ 8,634                    | \$ -                  | \$ -                      | \$ -             | \$947,716 |
| (lifetime ECL)                       | (13,514)       | (174)                       |                       |                           |                  | (13,688)  |
| Amortized cost                       | \$925,568      | <u>\$ 8,460</u>             | <u>\$</u> _           | <u>\$</u> _               | <u>\$</u> _      | \$934,028 |

The movements of the loss allowance of accounts receivable were as follows:

|   | 2018             |
|---|------------------|
| Balance at January 1 (IAS 39)                       | \$ 12,285        |
| Adjustment on initial application of IFRS 9         | <u></u>          |
| Balance at January 1 (IFRS 9)                       | 12,285           |
| Net remeasurement of expected credit loss allowance | 1,403            |
| Balance at December 31                              | <u>\$ 13,688</u> |

# 2017

The Company applied the same credit policy in 2018 and 2017. The average credit period for sales of goods was 30-60 days. Allowance for doubtful accounts is based on estimated uncollectable amounts determined by reference to the aging of receivables, past dealing experience with the counterparties and an analysis of their respective financial positions.

The aging of accounts receivable was as follows:

|                            | December 31,<br>2017 |
|----------------------------|----------------------|
| Not overdue                | \$ 528,110           |
| Overdue under 30 days      | 27,116               |
| Overdue 31-90 days         | -                    |
| Overdue 91 days and longer |                      |
|                            | <u>\$ 555,226</u>    |

The movements of the allowance for doubtful accounts were as follows:

|   | For the Year<br>Ended<br>December 31,<br>2017 |
|---|---|
| Balance at January 1<br>Provision (reversed ) | \$ 10,676<br>1,609                            |
| Balance at December 31                        | \$ 12,285                                     |

The Company's provision losses on accounts receivable were recognized on a collective basis.

## 9. INVENTORIES

|                            | December 31         |                     |  |
|----------------------------|---------------------|---------------------|--|
|                            | 2018                | 2017                |  |
| Raw materials and supplies | \$ 123,949          | \$ 86,115           |  |
| Work-in-process            | 1,061,800           | 1,124,060           |  |
| Finished goods             | 339,286             | 334,234             |  |
| Inventories in transit     | 32,475              | 81,522              |  |
|                            | <u>\$ 1,557,510</u> | <u>\$ 1,625,931</u> |  |

- a. As of December 31, 2018 and 2017, the allowance for inventory devaluation was \$327,476 thousand and \$294,728 thousand, respectively.
- b. The operating cost for the years ended December 31, 2018 and 2017 was \$6,116,544 thousand and \$5,490,445 thousand, respectively. The operating cost included inventory write-downs and obsolescence and abandonment losses of inventories in the amounts of \$45,385 thousand and \$32,066 thousand for the years ended December 31, 2018 and 2017, respectively.

# 10. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME - 2018

Equity instruments at FVTOCI:

|                                     | December 31,<br>2018 |
|-------------------------------------|----------------------|
| Domestic listed and emerging stocks |                      |
| Nyquest Technology Co., Ltd.        | \$ 74,092            |
| Brightek Optoelectronic Co., Ltd.   | 341                  |
| Non-listed stocks                   |                      |
| United Industrial Gases Co., Ltd.   | 396,000              |
| Yu-Ji Venture Capital Co., Ltd.     | 22,733               |
|                                     | <u>\$ 493,166</u>    |

These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Company's strategy of holding these investments for long-term purposes. These investments in equity instruments were classified as available-for-sale and financial assets measured at cost under IAS 39. Refer to Note 3, Note 11 and Note 12 for information relating to their reclassification and comparative information for 2017.

In 2018, the Company sold part of its shares of Nyquest Technology Co., Ltd. on the fair value amounted to \$5,850 thousand in order to manage its investment concentration risk. and it transferred \$3,228 thousand from other equity to retained earnings, refer to Note 18 for related information.

The Company recognized dividend income of \$67,547 thousand for the year ended December 31, 2018. To elaborate, the amount related to investment derecognition for the year ended December 31, 2018 was \$648 thousand. The amount related to investments held at the end of the year was \$66,899 thousand for the year ended December 31, 2018.

#### 11. AVAILABLE-FOR-SALE FINANCIAL ASSETS - 2017

December 31, 2017

Domestic listed investment

Nyquest Technology Co., Ltd. (Note 10)

\$ 183,199

## 12. FINANCIAL ASSETS MEASURED AT COST - 2017

|   | December 31,<br>2017  |
|---|-----------------------|
| Non-listed investment (Note 10)   |                       |
| United Industrial Gases Co., Ltd.<br>Brightek Optoelectronic Co., Ltd.<br>Yu-Ji Venture Capital Co., Ltd. | \$ 280,000<br>493<br> |
|   | \$ 301.493            |

Management believed that the above non-listed investments held by the Company have fair value that cannot be reliably measured because the range of reasonable fair value estimates was so significant and various estimates cannot be reasonably estimated; therefore, they were measured at cost less impairment at the end of reporting period.

# 13. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

|                             | December 31         |              |  |

## 17. RETIREMENT BENEFIT PLANS

# a. Defined contribution plan

The Company adopted a pension plan under the Labor Pension Act (the "LPA"), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

# b. Defined benefit plan

The defined benefit plan adopted by the Company in accordance with the Labor Standards Law is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. In 2018 and 2017, the Company contributed amounts equal to 15%, of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Company assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Company is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor ("the Bureau"); the Company has no right to influence the investment policy and strategy.

The amounts included in the balance sheets in respect of the Company's defined benefit plans were as follows:

|  | December 31             |                         |  |

| Settlement of pension liabilities   | (8,060)  |                                  | (8,060)                                     |
| Balance at December 31, 2018  | <u>\$ 923,106</u>  | <u>\$ (630,244</u> )             | \$ 292,862                                  |

The amounts recognized in profit or loss in respect of these defined benefit plans were as follows:

|                                     | For the Year Ended December 31 |                  |  |
|-------------------------------------|--------------------------------|------------------|--|
|                                     | 2018                           | 2017             |  |
| Analysis by function                |                                |                  |  |
| Operating costs                     | \$ 6,932                       | \$ 7,833         |  |
| Selling expenses                    | 105                            | 96               |  |
| General and administrative expenses | 1,054                          | 1,558            |  |
| Research and development expenses   | 4,363                          | 5,869            |  |
|                                     | <u>\$ 12,454</u>               | <u>\$ 15,356</u> |  |

Through the defined benefit plans under the Labor Standards Law, the Company is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the debt investments of the plan assets.
- 3) Salary risk: The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations were as follows:

|                                     | December 31 |       |  |
|-------------------------------------|-------------|-------|--|
|                                     | 2018        | 2017  |  |
| Discount rate(s)                    | 1.25%       | 1.50% |  |
| Expected rate(s) of salary increase | 1%-2%       | 1%-2% |  |

If possible reasonable change in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation would increase (decrease) as follows:

|                                     | December 31         |             |  |
|-------------------------------------|---------------------|-------------|--|
|                                     | 2018                | 2017        |  |
| Discount rate(s)                    |                     |             |  |
| 0.25% increase                      | \$ (21,231)         | \$ (20,840) |  |
| 0.25% decrease                      | \$ 21,977           | \$ 21,597   |  |
| Expected rate(s) of salary increase |                     |             |  |
| 0.25% increase                      | <u>\$ 21,830</u>    | \$ 21,505   |  |
| 0.25% decrease                      | <u>\$ (21,195</u> ) | \$ (20,853) |  |

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

|  | December 31      |           |
|--|------------------|-----------|
|  | 2018             | 2017      |
| The expected contributions to the plan for the next year | <u>\$ 86,365</u> | \$ 90,000 |
| The average duration of the defined benefit obligation   | 9.4 years        | 9.8 years |

## 18. EQUITY

### a. Share capital

|                                       | December 31         |              |  |
|---------------------------------------|---------------------|--------------|--|
|                                       | 2018                | 2017         |  |
| Authorized shares (in thousands)      | 300,000             | 300,000      |  |
| Authorized capital                    | \$ 3,000,000        | \$ 3,000,000 |  |
| Issued and paid shares (in thousands) | <u>207,554</u>      | 207,554      |  |
| Issued capital                        | <u>\$ 2,075,544</u> | \$ 2,075,544 |  |
| Par value (in New Taiwan dollars)     | <u>\$ 10</u>        | <u>\$ 10</u> |  |

As of December 31, 2018 and 2017, the balance of the Company's capital account amounted to \$2,075,544 thousand, divided into 207,554 thousand ordinary shares at a par of NT\$10.

#### b. Capital surplus

|  | December 31      |                  |  |
|--|------------------|------------------|--|
|  | 2018             | 2017             |  |
| May be used to offset a deficit, distributed as cash dividends, or transferred to capital* |                  |                  |  |
| Additional paid-in capital   | \$ 63,485        | \$ 63,485        |  |
| May not be used for any purpose  |                  |                  |  |
| Employee share options   | 13               | 13               |  |
|  | <u>\$ 63,498</u> | <u>\$ 63,498</u> |  |

<sup>\*</sup> Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, it can be distributed in cash or transferred to capital (limited to a certain percentage of the Company's paid-in capital and once a year).

#### c. Retained earnings and dividend policy

Under the dividends policy as set forth in the Company's Articles of Incorporation (the "Articles"), if the Company has surplus earnings at the end of a fiscal year, after covering all losses incurred in previous years and paying all taxes, the Company shall set aside 10% of said earnings as legal reserve. However, legal reserve need not be made when the accumulated legal reserve equals the paid-in capital of the Company. After setting aside or reversing special reserve pursuant to applicable laws and regulations and orders of competent authorities from (1) the remaining amount plus undistributed retained earnings; or (2) the difference between the undistributed retained earnings and the losses suffered by the Company at the end of a fiscal year if the losses can be fully covered by the undistributed retained earnings, the Company shall distribute the remaining amount (if not otherwise set aside as special reserve and reserved based on business needs) and shall be used by the Company's Board of Directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for bonus to shareholders. In principle, not less than 10% of the total shareholders bonus shall be distributed in form of cash. For the policies on distribution of employees' compensation and remuneration to directors, refer to Note 20 "Employee benefits expense".

The appropriation for legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of the Company's earnings for 2017 and 2016 had been approved in the shareholders' meetings on June 12, 2018 and June 14, 2017, respectively. The appropriations and dividends per share were as follows:

|                                 | Appropriatio      | Appropriation of Earnings |                  | Per Share<br>Γ\$) |  |
|---------------------------------|-------------------|---------------------------|------------------|-------------------|--|
|                                 | For<br>Year 2017  | For<br>Year 2016          | For<br>Year 2017 | For<br>Year 2016  |  |
| Legal reserve<br>Cash dividends | \$ 68,813<br>     | \$ 61,316<br>498,131      | \$ 2.50          | \$ 2.40           |  |
|                                 | <u>\$ 587,699</u> | \$ 559,447                |                  |                   |  |

The appropriations of the Company's earnings for 2018 had been approved in the Board of Directors'

meeting on February 1, 2019. The appropriations and dividends per share were as follows:

|                | Appropriation of Earnings | Dividends Per<br>Share (NT\$) |  |
|----------------|---------------------------|-------------------------------|--|
| Legal reserve  | \$ 71,063                 |                               |  |
| Cash dividends | 518,886                   | \$ 2.50                       |  |

The appropriations of earnings for 2018 will be presented for approval in the shareholders' meeting to be held on June 24, 2019.

# d. Other equity items

- 1) The exchange differences arising on translation of foreign operations' net assets from its functional currency to the Company's presentation currency (New Taiwan dollar) are recognized directly in other comprehensive income. As of December 31, 2018 and 2017, other comprehensive loss was \$10,370 thousand and \$29,445 thousand, respectively.
- 2) Unrealized gain (loss) on financial assets at FVTOCI

|   | For the Year<br>Ended<br>December 31,<br>2018  |

## 19. INCOME TAXES RELATING TO CONTINUING OPERATIONS

## a. Income tax recognized in profit or loss

The major components of income tax expense were as follows:

|  | For the Year Ended December 31 |                  |  |
|--|--------------------------------|------------------|--|
|  | 2018                           | 2017             |  |
| Current income tax expense                               |                                |                  |  |
| In respect of the current year                           | \$ 84,000                      | \$ 80,000        |  |
| Adjustment for prior years' tax and effects of estimated | ·                              |                  |  |
| difference   | 4                              | (1,045)          |  |
| Deferred income tax                                      | <del></del>                    |                  |  |
| In respect of the current year                           | (1,000)                        | (2,000)          |  |
| Effect of tax rate changes                               | (12,000)                       | <u> </u>         |  |
| Income tax expense recognized in profit or loss          | <u>\$ 71,004</u>               | <u>\$ 76,955</u> |  |

## b. Reconciliation of accounting profit and income tax expense is as follows:

|   | For the Year End | led December 31 |
|---|------------------|-----------------|
|   | 2018             | 2017            |
| Income tax expense from continuing operations at the statutory rate | \$ 156,000       | \$ 130,000      |
| Tax effect of adjustment item                                       | Ψ 120,000        | Ψ 120,000       |
| Permanent differences   | (27,000)         | (20,000)        |
| Tax-exempt income   | (14,000)         | (10,000)        |
| Others  | 9,000            | -               |
| Additional income tax on unappropriated earnings                    | 8,149            | 1,967           |
| Current income tax credit   | (48,149)         | (21,967)        |
| Current income tax  | 84,000           | 80,000          |
| Deferred income tax   | (13,000)         | (2,000)         |
| Adjustment for prior year's tax                                     | 4                | (1,045)         |
| Tax expense recognized in profit or loss                            | <u>\$ 71,004</u> | \$ 76,955       |

In 2017, the applicable corporate income tax rate used by the Company entities is 17%. However, the Income Tax Act was amended in 2018, and the corporate income tax rate was adjusted from 17% to 20%, effective in 2018. In addition, the rate of the corporate surtax applicable to the 2018 unappropriated earnings will be reduced from 10% to 5%.

As the shareholders meeting have not resolved the appropriation of earnings for 2018, the potential income tax consequences of the 2018 unappropriated earnings are not reliably determinable.

#### c. Current tax liabilities

|                    | Decem     | December 31 |  |  |
|--------------------|-----------|-------------|--|--|
|                    | 2018      | 2017        |  |  |
| Income tax payable | \$ 83,748 | \$ 73,283   |  |  |

#### d. Deferred income tax assets

|   | December 31      |                  |  |
|---|------------------|------------------|--|
|   | 2018             | 2017             |  |
| Deferred income tax assets Allowance for inventory valuation and obsolescence loss and others | <u>\$ 80,000</u> | <u>\$ 67,000</u> |  |

## e. Information about unused tax-exemption

As of December 31, 2018, profit attributable to the following expansion projects was exempted from income tax for a five-year period:

## **Expansion of Construction Project**

**Tax-exemption Period** 

Advanced integrated circuit design

2014-2018

#### f. Income tax assessments

The Company's tax returns through 2016 have been assessed by the tax authorities.

## g. Information about investment credits

The Company applies the Statute for Industrial Innovation Article 10, and up to 10% of its R&D expenses may be credited against the profit-seeking enterprise income tax payable in each of the three years following the then current year.

## 20. EMPLOYEE BENEFITS EXPENSE, DEPRECIATION, AND AMORTIZATION

|   | For the Year Ended December 31 |                                  |                         |        |    |           |    |                                  |                            |       |    |           |

To be in compliance with the Company Act, the Company stipulated to distribute employees' compensation and remuneration to directors at the rates no less than 1% and no higher than 1%, respectively, of profit before income tax, employees' compensation, and remuneration to directors.

The employees' compensation and remuneration to directors for 2018 and 2017 which have been approved in the Board of Directors' meetings on February 1, 2019 and January 26, 2018, respectively, were as follows:

|                              | For the Year Ended December 31 |   |           |   |
|------------------------------|--------------------------------|---|-----------|---|
|                              | 2018                           |   | 2017      |   |
|                              | Amount                         | % | Amount    | % |
| Employees' cash compensation | \$ 50,428                      | 6 | \$ 49,360 | 6 |
| Remuneration of directors    | 8,405                          | 1 | 8,227     | 1 |

If there is a change in the proposed amounts after the annual financial statements were authorized for issue, the differences are recorded as a change in accounting estimate. There was no difference between the actual amounts of employees' compensation and remuneration to directors and supervisors paid and the amounts recognized in the financial statements for the year ended December 31, 2017 and 2016.

Information on the employees' compensation and remuneration to directors resolved by the Company's Board of Directors in 2019 and 2018 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

#### 21. EARNINGS PER SHARE

The numerators and denominators used in calculating basic and diluted earnings per share ("EPS") were as follows:

|  | Amounts<br>(Numerator) | Shares<br>(Denominator)<br>(In Thousands) | EPS (NT\$) |
|--|------------------------|---|------------|
| For the year ended December 31, 2018   |                        |   |            |
| Net profit Basic EPS   | \$ 710,633             |   |            |
| Earnings used in the computation of basic EPS  | 710,633                | 207,554                                   | \$ 3.42    |
| Effect of potentially dilutive ordinary shares<br>Employee's compensation                    | <del>-</del>           | 1,270                                     |            |
| Diluted EPS Earnings used in the computation of diluted EPS                                  | <u>\$ 710,633</u>      | 208,824                                   | 3.40       |
| For the year ended December 31, 2017   |                        |   |            |
| Net profit Basic EPS   | \$ 688,133             |   |            |
| Earnings used in the computation of basic EPS Effect of potentially dilutive ordinary shares | 688,133                | 207,554                                   | 3.32       |
| Employee's compensation  | <del>-</del>           | <u>771</u>                                |            |
| Diluted EPS Earnings used in the computation of diluted EPS                                  | <u>\$ 688,133</u>      | 208,325                                   | 3.30       |

If the Company offered to settle compensation paid to employees in cash or shares, the Company assumed the entire amount of the compensation would be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted EPS, as the effect is dilutive. The number of shares used in the computation of diluted EPS is estimated by the amount of compensation divided by the closing price of the potential common shares at the end of the reporting period. Such dilutive effect of the potential shares was included in the computation of diluted EPS until the number of shares to be distributed to employees is resolved in the following year.

#### 22. OPERATING LEASE ARRANGEMENTS

## The Company as Lessee

#### a. Lease arrangements

The Company leased land from Science Park Administration, and the lease term will expire in December 2027, but can be extended after the expiration of the lease.

The Company leased land from Taiwan Sugar Corporation under a twenty-year term from October 2014 to September 2034, which can be extended after the expiration of the lease. The chairman of the Company is a joint guarantor of such lease; refer to Note 25.

The Company leased some of offices, and these leases will expire between 2020 and 2022, but can be extended after the expiration of the lease periods.

As of December 31, 2018 and 2017, refundable deposits paid under operating leases amounted to \$30,845 thousand and \$30,783 thousand, respectively.

#### b. Prepayments for lease obligations

|   | December 31               |                           |
|---|---------------------------|---------------------------|
|   | 2018                      | 2017                      |
| Current (recorded as "other current assets") Non-current (recorded as "other non-current assets") | \$ 3,463<br><u>35,129</u> | \$ 3,445<br><u>37,510</u> |
|   | <u>\$ 38,592</u>          | <u>\$ 40,955</u>          |

Prepaid lease payments include Taiwan Sugar Corporation's land use right, which is located in Tainan.

#### c. Lease expense

|                   | For the Year End | For the Year Ended December 31 |  |
|-------------------|------------------|--------------------------------|--|
|                   | 2018             | 2017                           |  |
| Lease expenditure | <u>\$ 38,096</u> | \$ 38,380                      |  |

#### 23. CAPITAL MANAGEMENT

The Company's capital management objective is to ensure it has the necessary financial resources and operational plan so that it can cope with the next twelve months working capital requirements, capital expenditures, research and development expenses, debt repayments and dividends payments.

## 24. FINANCIAL INSTRUMENT

## a. Categories of financial instruments

### b. Fair value information

- 1) The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance in its entirety, which are described as follows:
  - a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
  - b) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
  - c) Level 3 inputs are unobservable inputs for the asset or liability.

- 2) Fair value measurements recognized in the balance sheets
  - a) The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed shares and emerging shares).
  - b) The fair value of the financial instruments at fair value through profit or loss is based on Level 2 inputs, either directly or indirectly. The fair value of foreign-currency derivative financial instrument could be determined by reference to the price and discount rate of currency swap quoted by financial institutions. Foreign exchange forward contracts use individual maturity rate to calculate the fair value of each contract.
  - c) Domestic unlisted equity instrument at FVTOCI were all measured based on Level 3. Fair values of the above equity instruments were determined using comparable listed company approach, refer to strike price of similar business at active market, implied value multiple of the price and relevant information. Significant unobservable inputs included PE ratio, value multiple and market liquidity discount.
- 3) Financial instruments that are not measured at fair value

Management believes the carrying amounts of financial assets and financial liabilities that are not measured at fair value recognized in the financial statements approximate their fair values.

4) Fair value of financial instruments that are measured at fair value on a recurring basis

The emerging securities held by the Company were determined as active market, and were transferred from Level 2 to Level 1 this year.

### c. Financial risk management objectives and policies

The Company sought to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Company's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, and use of financial derivatives. Compliance with policies and exposure limits was reviewed by the internal auditors on a continuous basis.

### 1) Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company uses forward foreign exchange contracts to hedge the foreign currency risk on export.

### a) Foreign currency risk

The Company is engaged in foreign currency transaction and thus it is exposed to the risk of changes in foreign currency exchange rates. The Company uses forward foreign exchange contracts to hedge the exchange rate risk within approved policy parameters utilizing forward foreign exchange contracts.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are set out in Note 29.

The sensitivity analysis included only outstanding foreign currency denominated monetary items at the end of the reporting period and assuming an increase in net income and equity if New Taiwan dollars strengthen by 1% against foreign currencies. For a 1% weakening of New Taiwan dollars against the relevant currency, there would be impact on net income in the amounts of \$4,069 thousand and \$2,449 thousand decrease for the years ended December 31, 2018 and 2017, respectively. The amounts included above for a 1% weakening of New Taiwan dollars against the relevant currency is without considering the impact of hedge contracts and hedged item.

#### b) Interest rate risk

Interest rate risk refers to the risk that the change in market value will influence the fair value of financial instruments. The Company's interest rate risk arises primarily from floating rate deposits.

As of December 31, 2018 and 2017, the carrying amount of the Company's floating rate deposits with exposure to interest rates was \$105,566 thousand and \$5,619 thousand, respectively.

The sensitivity analyses below were determined based on the Company's exposure to interest rates for fair value of variable-rate derivative instruments at the end of the reporting period. If interest rates had been higher by one percentage point, the Company's cash flows for the years ended December 31, 2018 and 2017 would have increased by \$1,056 thousand and \$56 thousand, respectively.

### 2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In this regard, the management of the Company consider that the Company's credit risk was significantly reduced.

## 3) Liquidity risk

The Company has enough operating capital to comply with loan covenants; liquidity risk is low.

The Company's non-derivative financial liabilities and their agreed repayment period were as follows:

|                                      | <b>December 31, 2018</b> |                  |              |              |  |  |  |

The remuneration of directors and key management personnel was determined by the remuneration committee based on the performance of individuals and market trends.

### 26. PLEDGED AND COLLATERALIZED ASSETS

Refer to Note 6.

## 27. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

As of December 31, 2018 and 2017 amounts available under unused letters of credit were approximately US\$180 thousand and \$254 thousand, respectively.

## 28. SUBSEQUENT EVENTS

In January 2019 Microchip Technology Inc. (Listed Company in United States) filed a first Amended Complaint in the District Court for the District of Delaware. Microchip alleges that the Company and NTCA infringe Microchip's patents. The case is still in its initial stage, and its impact on the Company is uncertain for the moment.

## 29. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by foreign currencies other than functional currency of the Company and the exchange rates between foreign currencies and the functional currency were disclosed. The significant assets and liabilities denominated in foreign currencies were as follows:

| December 31 |   |  |   |   |   |  |

| Non-current liabilities       | 468,124   | 498,545   | (30,421)   | (6)        |  |  |
| Total indebtedness            | 2,383,302 | 2,485,871 | (102,569)  | (4)        |  |  |
| Capital Stock                 | 2,075,544 | 2,075,544 | -          | -          |  |  |
| Additional paid-in capital    | 63,498    | 63,498    | -          | -          |  |  |
| Retained earnings             | 1,426,005 | 1,297,860 | 128,145    | 10         |  |  |
| Other equity interest         | 169,319   | 226,059   | (56,740)   | (25)       |  |  |
| Total equity                  | 3,734,366 | 3,662,961 | 71,405     | 2          |  |  |

Primary reasons for changes exceeding 20%:

<sup>1.</sup> Intangible assets: Caused mainly by amortization of intangible assets in 2018.

<sup>2.</sup> Other equity interest: Mainly due to decrease in unrealized gains on financial assets.

## II. Analysis of financial performance

Unit: thousand NT\$ Change Item\Year 2018 2017 Change (%) (amount) 9 Operating revenue 10,040,221 9,235,382 804,839 624,179 11 Operating cost 6,127,054 5,502,875 5 Operating profit 3,913,167 3,732,507 180,660 Operating expenditures 5 3,018,944 139,564 3,158,508 Operating profits 41,096 6 754,659 713,563 Non-operating income and 84,261 85,868 1,607) (2) expenditure Profit before tax 838,920 799,431 39,489 5 Income tax expense 16,989 15 128,287 111,298 Net profit of the term 710,633 688,133 22,500 Other comprehensive 273,853) 94,485 368,338) (390)income of the term Total comprehensive 436,780 782,618 345,838) (44)income of the term

Analysis of reasons for changes exceeding 20%:

Increase in other comprehensive income of the term and decrease in total comprehensive income of the term are mainly due to decrease in unrealized valuation loss on available-forsale financial assets.

The expected sales and its basis, and the possible impact on the Company's future financial operations and response plans:

Sales forecasts for 2019 remain optimistic with regards to the industry outlook, future market demand and the Company's capacity.

## III. Cash flow analysis

|              |                 |                                 |           | Unit:      | thousand NT\$ |
|--------------|-----------------|---------------------------------|-----------|------------|---------------|
| Cash balance | Annual net cash | Cash outflow                    |           | Remedia    | l measures    |
| at the       | flow from       | due to investing   Cash surplus |           | for cash i | nadequacy     |

| the period   | activities      | activities                      |           | plans      | plans         |
| 1,417,029    | 873,147         | (746,258)                       | 1,543,918 | -          | -             |

- 1. Analysis on the cash flow changes of the current year:
  - (1) Operating activities: Mainly caused by operating profits in this period.
  - (2) Investing activities: Net cash outflow mainly caused by purchases of property, plant and equipment.
  - (3) Financing activities: Net cash outflow mainly caused by distribution of cash dividend.
- 2. Remedial action for cash deficit and liquidity analysis: Not applicable.
- 3. Cash flow analysis for the coming year (note):
  - (1) Cash inflow from operating activities amounted to NT\$1 billion: Mainly from operating net profit, add back depreciation and amortization of non-cash expenses.
  - (2) Cash outflow from investing activities amounted to NT\$390 million: Mainly from capital expenditures.
  - (3) Cash outflow from financing activities amounted to NT\$620 million: Main due to distribution of cash dividends and payment of principal of lease liabilities.

Note: Unaudited figures

- IV. The effects that significant capital expenditures have on financial operations in the recent year: N/A.
  - 1. Major capital expenditures and its implementation status: N/A.
  - 2. Anticipated benefit: N/A.
- V. Investment policy for the most recent year, profit/loss analysis, improvement plan, and investment plan for the coming year: The Company's reinvestment projects are divided into strategic investments and non-strategic investments. The objective of strategic investments is to produce comprehensive results for the operation of the Company, and non-strategic investments are financial in nature. The Company has no long-term strategic interest reinvestments for the most recent year and will formulate plans in the future as required by company operations.
- VI. Risk management and evaluation
  - (I) Impact of interest rate and exchange rate changes and inflation on Company's profit and response measures:
    - 1. Effects of changes in interest rates:

The Company currently operates mainly on own funds and changes in interest rates would have no major impact on the operations of the Company. The Company maintains friendly relations with multiple financial institutions that offer preferred interest rates when the need from capital arises; changes in interest rates would have no major impact on the operations of the Company.

### 2. Effects of changes in exchange rates:

Nuvoton's exchange rate risks are mainly derived from operating activities. Regarding the exchange rate risks associated with purchases or sales in currency valuation, the Company offsets foreign currency assets and liabilities to achieve balance and maintains close communication with financial institutions to continue to observe changes in exchange rates and lower exchange rate variation risks. The Company will continue to adopt the following response actions for exchange rate risks:

- A. Engage in financial derivatives transactions for the main purpose of hedging risks derived from business operations and choose financial derivative products to primarily hedge the risks associated with the Company's business operations. In the selection of trading counterparty, give primary consideration to credit risk to avoid loss arising from counterparty's failure to perform its contractual obligation. In addition, the Company shall choose as its partners the financial institutions with low credit risk, good relationship with the Company, and the capability to provide the Company with professional information.
- B. The Company keeps abreast of financial market information, predicts market trends, gets familiar with financial products and related regulations and trading techniques, and provides full and timely information to the management and relevant departments for reference.
- C. The Company sets the limit of unrealized loss on all financial derivatives contracts to 20% of the contract values or 3% of owners' equity, whichever is lower. The Company's finance unit evaluates the Company's position on financial derivatives every month and produces a report therefor, which is submitted to the head of finance and senior management authorized by the Board of Directors for review in the hope to predict the risk of each transaction and potential loss.

### 3. Inflation:

The Company shall continue to actively manage and control cost and operating expenditures to reduce the impact of inflation on operations. There has been no severe inflation in Taiwan or across the world and therefore there has been no significant impact on the Company.

(II) Policies, main causes of gain or loss and future response measures with respect to high-risk, high-leverage investments, fund loans to others or endorsement guarantees, and derivatives transactions:

The Company has not engaged in any high-risk, high-leverage investment, loans to other parties, or provided any endorsement or guarantee. The Company's derivatives trading policy aims to hedge against the risks derived from business operations and reduce the risk of fair value fluctuation for assets and liabilities actually owned by the Company under the objective of

economic hedge and the resulting loss or income in exchange rates are entirely manageable. The Company has established "Regulations Governing the Acquisition or Disposal of Assets Procedures," "Procedures for Lending Funds to Other Parties," "Regulations Governing Endorsements and Guarantees", and "Procedures for Engaging in Derivatives Transactions" as the basis for related transactions to control and manage financial transaction risks. The Company has restricted its subsidiaries from transactions including lending to other parties, providing endorsement guarantees and trading in financial derivatives to close off related risks from subsidiary companies.

## (III) Future R&D Programs and Expected R&D Expenses

The Company's future R&D undertaking will focus on the research of more advanced process platform, low-voltage, low-power, information security, and high-speed CPU, and special innovative IP technology geared at enhancing the anti-noise capability, low-temperature works, heat resistance and anti-static capability. The goal is to make gradual headway into energy efficient solutions and automotive electronics markets and achieve a technological level on par with MCU suppliers in Europe, U.S. and Japan as soon as possible and continue to expand the customer base and applications to adapt to future changes in the industry. The Company will also carry out R&D for cloud computing, smart handheld devices and logic IC for PC, and moves in the directions of security management, energy saving, and better user experience to expand production lines and applications based on the solid foundation of existing operations. The total 2019 R&D expenditure for the preceding application products is estimated at NT\$2.9 billion.

(VI) Major changes in government policies and laws at home and broad, the impact on Company finance and business, and response measures:

The Company's operation policies must follow laws and regulations and the Company must also watch closely the important shifts in policies and laws at home and abroad and consult related experts for their opinion when necessary to take appropriate response measures. As of the date of report, the Company finance and business have not been affected by major changes in government policies and laws at home and abroad.

(V) Impact of recent technological and market changes on the Company's finance and business, and response measures:

The Company watches closely technological and market changes, and will, in view of the circumstances, assign staff or a project team to study and evaluate the impact of those changes on the Company's development, finance and business in the future as well as response measures. As of the date of report, there have not been significant technological changes that may produce material impact on the Company's finance and business.

(VI) Impact of corporate image change on risk management and response measures:

The Company is focused on the operation of its main business and internal auditing to comply with related laws and regulations. As of the date of report, the Company has been free

of events that affect corporate image.

- (XII) The expected benefits and possible risks of mergers and acquisitions as well as the responding measures: Not applicable.
- (VIII) Expected benefits and possible risks of factory expansions as well as the response measures: Not applicable.
  - (IX) Risks associated with over-concentration in purchase or sale and response measures:

The Company's purchasing is concentrated due to concerns in product quality and preferred purchasing price, though the Company maintains at least two suppliers for its main materials avoid risks resulting from over-concentration in purchasing. There is no over-concentration of sales for the Company and we continue to develop new products as well as long-term strategic cooperation with customers of excellent financial background to lower the risks of over-concentration of sales.

- (X) Impact of mass transfer of equity by or change of directors, supervisors, or shareholders holding more than 10% interest on the Company, associated risks and response measures: N/A
- (XI) The effects that change in management has on the Company as well as risk and responding measures: Not applicable.
- (XII) Litigation or non-litigation events:
  - 1. The company's concluded or pending litigious, non-litigious or administrative litigation event as of the date of report:

Microchip Technology Inc. filed a patent infringement suit in the United States District Court for the District of Delaware against the Company and our subsidiary in North America and delivered the statement of claims in January 2019. The Company cannot as yet predict the outcome of the suit or reliably estimate contingent liabilities. With the exception of the aforementioned legal case, there were no major legal cases in which the Company is a principal as of the publication date of the Annual Report.

2. The outcome of concluded or pending litigious, non-litigious, or administrative litigation events involving the director, supervisor, president, de facto responsible person, major shareholders holding more than 10% interest, or subsidiary of the Company:

Microchip Technology Inc. filed a patent infringement suit in the United States District Court for the District of Delaware against the Company and our subsidiary in North America and delivered the statement of claims in January 2019. The Company cannot as yet predict the outcome of the suit or reliably estimate contingent liabilities. With the exception of the aforementioned legal case, there were no other major legal cases that involved the Company's Directors, Supervisors, President, de facto responsible person, or major shareholders holding more than 10% interest as of the publication date of the Annual Report.

(XIII) Risk management organization framework:

The Company's risk management tasks are dispersed among different functions inside the

Company. The Company has established sound internal management guidelines and operating procedures and has developed comprehensive plans and processes for risk aversion, loss prevention and crisis management. In addition, the Company's management keeps continuous watch over changes in the macroeconomic environment that might affect the Company business and operations and has assigned staff to make planning and formulate response actions against all kinds of contingencies to reduce operational uncertainties to the minimum.

(XIV) Other significant risks and response measures:

## 1. Information Security Policy

Nuvoton has established the "Nuvoton Security Policy" and "Information Security Management Regulations" which are used as the basis for the establishment of management and control measures for protecting Nuvoton's information and information system from theft, computer crimes, industrial espionage, or other forms of harm or damage.

## 2. Information security management

The Company adopted the Cybersecurity Framework proposed by the National Institute of Standards and Technology (NIST) and the security control measures established by the Center for Internet Security (CIS). We convene regular information security management meetings to analyze and evaluate information security risks and establish management plans for potential risks for regular follow-up.

## 3. Information security and network risk assessment

The Company has established network and computer security protection systems to ensure the normal operations of the Company's information system. The systems include firewall/intrusion detection/intrusion prevention system, and the Security Information and Event Management system to strengthen defenses against information security incidents.

Numerous types of cyberattacks have emerged in recent years. They include encryption ransomware and malicious acts involving data theft or destruction through social engineering. The Company has established defense systems for common forms attack such as: malicious websites and malicious emails. In addition, we also use system audits, backup recovery, remote backup, and emergency response drills to effectively reduce information security risks and protect the Company's information assets.

### 4. Impact of material information security incidents and response measures

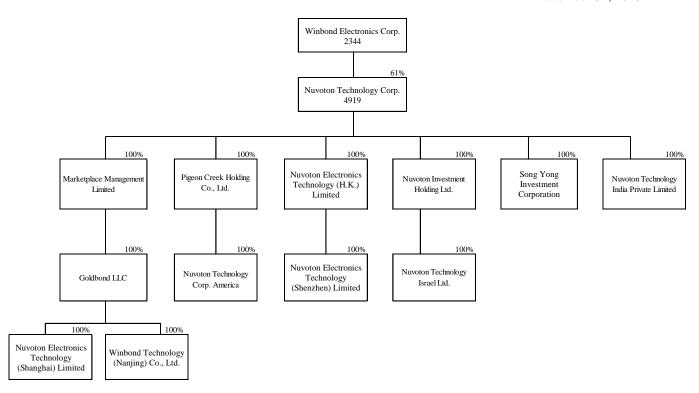

The Company has found no material information security incidents that have caused or may cause material negative impact on the Company's business and operations in 2018 and this year as of the publication date of the Annual Report.

## VII. Other important matters: N/A.
